Dawn Perry, RSO Environmental Services Manager	TES Consultants, P.C. 23943 Industrial Park Drive Farmington Hills, MI 48335	248-615-3000 FAX -3512

SUBJECT
Control No. 317874- Re - Amendment request for renewal of License No. 21-32150-01, by application dated January 22, 2009, regarding moisture/density gauges.

SUMMARY
In a telephone conversation with Ms. Perry on this date, I noted that the renewal application did not address temporary job site use of the portable gauges. She confirmed that the licensee does use the gauges at temporary job sites but brings the gauges back to their home facility for overnight storage and confirmed that it was their intent to request that that temporary job site usage continue to be authorized in the subject license as renewed, to which I agreed to do. Ms. Perry also confirmed that although they did not submit with the license renewal application, detailed procedures for their licensed activities, as was done previously in a letter dated June 22, 2004, they continue to have and utilize detailed procedures that more than meet the guidance criteria for a portable gauge license program as described in NUREG – 1556, Vol. 1, Rev. 1.
