SUMMARY
We have reviewed your letter dated 1/2/09 requesting an amendment to your byproduct materials license and find that we need additional information as follows:

10 CFR 35.24(b) requires, in part, that a licensee's management shall appoint a Radiation Safety Officer who agrees, in writing, to be responsible for implementing the radiation protection program.

Please submit a letter, currently dated and signed by your management and your proposed RSO, Gary Dillon, M.S. stating that he accepts the position as RSO for this license and that he understands the duties and responsibilities associated with this position.

In addition please submit a currently signed and dated delegation of authority for

Gary Dillon. A sample delegation of authority may be found in NUREG 1556, Vol. 9, Rev.2, copy attached and available on our website at:

http://www.nrc.gov/reading-rm/doc-collections/nuregs/staff/sr1556/v9/r2/

In addition, Mr. Dillon's application to become RSO did not reflect that he had received training required by 10 CFR 35.51(e) for the modality of Iodine-125 Iotrex in the GliaSite RTS, permitted by 10 CFR 35.1000. Please account for this lapse or please provide the appropriate preceptor attestation to include Mr. Dillon's training in this modality. Please do not submit the information we already have for Mr. Dillon; only provide the information being requested at this time.

We will be unable to continue processing your request until we receive this information.

In accordance with 10 CFR 2.390 of the NRC's "Rules of Practice," a copy of this letter will be available electronically in the NRC Public Document Room or from the Publicly Available Records (PARS) component of NRC's document system (ADAMS). The NRC's document system is accessible from the NRC Web site at http://www.nrc.gov/reading-rm/adams.html.
