SUMMARY

Your letter dated JAN. 5, 2009, requested the addition of accelerator produced materials to your license.

Please note that this change was "automatically" made for you when 10 CFR 30.4, "Definitions," was amended on October 1, 2007, to expand the scope of materials covered by the term "byproduct materials." Similar changes were made to 10 CFR 35.65, 35.100, 35.200, etc. on the same date with the same expansion of the scope of covered materials by revision of "Definitions."

You may wish to consult the "NARM Toolkit" at this link:

http://nrc-stp.ornl.gov/narmtoolbox.html

However, it is incumbent upon you to evaluate your licensed program within the expanded scope of these new authorizations and to request appropriate amendments if or when addresses of use, areas of use, or other program elements change or are expected to change.

Please review NUREG 1556, Vol. 9, Rev. 2 for additional guidance in these matters. It should have been mailed to you as a hard copy already but it is available on our website at:

http://www.nrc.gov/reading-rm/doc-collections/nuregs/staff/sr1556/v9/r2/

At this time it appears that there is nothing to amend on your license. Therefore, I am voiding your request as your license and the regulations already contain the authorizations needed to continue the current scope of your operations.

In accordance with 10 CFR 2.390 of the NRC's "Rules of Practice," a copy of this letter will be available electronically in the NRC Public Document Room or from the Publicly Available

Records (PARS) component of NRC's document system (ADAMS). The NRC's document system is accessible from the NRC Web site at http://www.nrc.gov/reading-rm/adams.html.

ACTION REQUIRED

As there is no need to issue an amendment at this time we are voiding this request.

PLEASE DIRECT ANY QUESTIONS YOU MAY HAVE TO ME AT (630) 829-9841 or (800) 522-3025.
