Subject: FYI: call from reporter

I spoke with Randall Woods from Inside NRC. He was following up on FSME's announcement that they were extending the scoping period for GE-H. I told him that GE originally submitted the ER early because they thought that would take the longest to complete, as compared to the SER. I told him the extnetion would cause the FEIS to now be on the same schedule for completion as the SER. I did not give a date, but told him it would be in our acceptance letter on the license application (date will be December 2010). I also referred him to Christianne and Andrea for specific questions on the EIS.
