Crint LaBrosse RSO	Plastatech Engineering, Ltd. 725 Morley Drive Saginaw, Michigan	989-754-6500 FAX -1626

SUBJECT
Control No. 318222: Re request by letter dated May 19, 2009, to replace current alternate RSO, Melvin R. Kuhl with Michael Matthews for License No. 21-26714-01.

SUMMARY
In our telephone conversation, the following items were discussed:

1. I explained to Mr. LaBrosse that our current policy is to not name Alternate Radiation Safety Officers as such on the license (currently in License Condition 11.B.) but that we will list the subject letter (which details Mr. Matthews qualification/training, duties and his designation as such) in the tie-down condition of the license. Therefore, we will be deleting current License Condition 11.B. which named the Alternate Radiation Safety Officer.

2. Mr. LaBrosse also confirmed that License Condition 12.A. which list those individuals authorized to use or supervise the use of licensed material should be changed to delete the name of Melvin R. Kuhl (no longer employed by the licensee) and to add the name of Michael Matthews.

3. Mr. LaBrosse confirmed that the licensee only possesses one fixed gauge which has a sealed source of Krypton-85 with a nominal activity of 50 millicuries. Although the licensee has no plans for any additional gauges, a 100 millicurie maximum possession limit was selected to temporarily allow for a second gauge should a replacement ever be needed.

ACTION REQUIRED
Licensee reviewer will utilize above information in review and evaluation of amendment request.
