Subject: GRANTED - Honeywell International - Request for Extension / Tritium Exit Sign Inventory

Dear Mr. Frederick: this is to inform you that your request for an extension to respond to NRC's Demand for Information (DFI) regarding the tritium exit sign inventory has been granted. The new due date for response is June 15, 2009, as you requested.

While the new due date for your response to the inventory is June 15, in accordance with one of the requirements in Item A of the DFI, NRC is still requiring that you respond by the due date of March 17, 2009, with the name of the individual you have appointed for ensuring day to day compliance with the requirements to properly manage tritium exit signs.

Furthermore, please note that this extension does not relieve you of the regulatory requirement to report any lost, stolen, or missing signs you may discover as a result of your inventory efforts. Please refer to the DFI cover letter for instructions on reporting lost, stolen or missing signs.

You may contact Angela McIntosh at MSEA@nrc.gov or (301) 415-3340 if you have any questions.

Subject: Honeywell International - Request for Extension / Tritium Exit Sign Inventory

Dear Ms. McIntosh,

As we discussed in our telephone conversation of March 9, 2009, Honeywell International Inc. ("Honeywell") needs to request a 90-day extension to complete our review of emergency exit signs that contain Tritium.

As you know, the NRC Demand for Information and Reporting Damaged Devices Containing Radioactive Material dated January 16, 2009 requires Honeywell to complete a review within 60 days, unless Honeywell obtains an extension from the NRC. This letter is Honeywell's first request for an extension.

Honeywell has initiated a review of our facilities and is in the process of completing a detailed inventory of all tritium containing exit signs. However, to assure that our inventory is accurate and complete we would request this extension to be able to verify our survey results and properly complete a response to Page 2, Section III, Information Request parts A-E of the NRC request.

Please feel free to contact me if you need any additional information.

Sincerely,

Harold (Howie) Frederick
