Dear Colleen:

This letter contains the additional information you have requested on control #318471, license #24-20234-02.

Per your conversation with Les Warner CNMT, this letter is to expedite the amendment process for the Radioactive Material License #24-20234-02 for Cass Regional Medical Center.

The new hospital is due to open September 30, 2009. We are the only hospital in southern Cass County, Missouri and any delay would put our patients at risk from receiving proper care. I know this is short notice, but it would be greatly appreciated.

This should answer the questions you needed addressed. If you require any further information please contact me at 816-380-5888, ext. 663.

Sincerely,

J. Christopher Lang, MHA, FACHE
Chief Executive Officer
