Subject: Telcon Summary - Telcon with SCE&G 4/2/09

On April 2, 2009 NRC staff (Tanya Simms and Joshua Wilson) participated in a telephone conference call with SCE&G representatives and observers (see below) regarding the staff's detailed review of the Summer Units 2 and 3 COL application. The purpose of the call was to provide clarity to the requests for additional information (RAI) #2283.

The discussion focused on the applicant's provisions to prevent contaminating the potable water and notations on figure 9.2-201 from the review in FSAR chapter 9, Section 9.2.5 .

At the conclusion of the call, SCE&G stated that they will provide the response as well as clarify the location of the off-site water treatment facility.
