Hi Russell - got your message.

Rajiv coordinated with Kathy Alexander to arrange the meeting, Hydrologist, Surface Water Availability and Interstate Compacts. Her phone is 512-239-0778 and her email is kalexand@tceq.state.tx.us

Kellye Rila also participated in the meeting, Manager, Water Rights Permitting and Availability Section, 512-239-4612, krila@tceq.state.tx.us

Either Kathy or Rila would be good contacts. Lann Bookout also participated in the meeting, he is their boss (I believe). But I don't have his card.

Hope this helps.

Two things on my end -

1) Can you confirm when we can expect those safety RAI responses regarding the updated groundwater model? I was thinking mid-November, but the safety PM told me November 30.
2) Would it be possible to move next Tuesday's conference call up to 1pm or 1:30pm EST? The PNNL folks have a meeting at 2:30 EST - unless you foresee the call wrapping up before 2:30.

Thanks!
Sarah
