SUBJECT

Control No. 318092 -- Re - Amendment request by NRC Form 314, Certificate of Disposition of Materials dated March 30, 2009, signed by William Mitchell, regarding transfer of radioactive materials to another licensee, possessing License No. LO5813 and request to terminate their NRC license, License No. 21-26292-01.

SUMMARY

In a telephone conversation with Pam Roop in the absence of Mr. Mitchell on this date, I related that the following additional information would need to be provided to us before we can terminate the license as requested:

A. Confirm that you only possessed one gauge, it being a Troxler Model 3440, Serial No. 19446;
B. Provide the name and address of the licensed recipient of your gauge as well as a copy of their State issued license (License No. LO5813) authorizing their possession of the Troxler model 3440 gauge you transferred to them.
C. Provide a record showing the date you transferred the gauge to the recipient as well as a copy of a record from the recipient of the gauge confirming their receipt (make, model and serial No. and date of receipt) of the gauge from Bob Mitchell and Associates.
D. Provide a copy of the leak test record for the sources in the subject gauge, current (within 12 months) as of the date of gauge transfer, which confirms the non-leaking status of the sources.

Licensee was requested to provide the requested response to me (as additional information to Control Number 318092) by facsimile at 630-515-1078. No follow-up hard copy is needed. Please call me (630-829-9828) as soon as you have sent the FAX or if you have questions.

In accordance with 10 CFR 2.390 of the NRC's "Rules of Practice," a copy of this conversation record will be available electronically for public inspection in the NRC Public Document Room or from the Publicly Available Records (PARS) component of NRC's document system (ADAMS). The NRC's document system is accessible from the NRC Web site at http://www.nrc.gov/reading-rm/adams.html (the Public Electronic Reading Room).
