Re: Amendment Requested to Materials License # 06-00253-04 03001239
Mail Control Number: ~~142255~~ 144127

Dear Ms. Gabriel:

This is a followup letter to address your email correspondence of 10/17/09 for additional information on the requested amendments to the Hartford Hospital materials license.

A. For Dr. Steger, I am enclosing a copy of the fax we received from Mr. Kenneth Helm, RSO, for the University of Louisville, KY. In it, he states that Dr. Michael Mills is authorized to preceptor for Medical Physics services.
B. Guo-Xin Qian has received training for the operation and the emergency procedures to the Nucletron HDR system at Hartford Hospital.
C. The current possession limit for 35.400 sources is sufficient for our needs.
D. I have not received the nuclear medicine area diagrams from our Engineering Dept. I will submit details of the PET-using spaces in a followup amendment prior to the February 2010 deadline.

If you have any questions or desire additional information, please contact me at (860) 545-2676, or 324-3438. I can also be paged throughout the hospital if not immediately available.

Thank you for your time and efforts with our requests.

Respectfully submitted,

Peter J. Mas, MS, DABMP
Physicist & RSO

Att. Ted Steger

Subject: Preceptorship, Dr. Michael Mills

To Whom It May Concern,

This letter is to confirm that Dr. Michael Mills acts as a preceptor authorized Medical Physics in the Department of Radiation Oncology at the University of Louisville. The University of Louisville operates under a Broadscope, Type A license, Kentucky # 202-029-22, which means individuals are not named on the license itself.

If there are any questions or concerns regarding this letter, please feel free to contact me at (502) 852-5231.

Sincerely,

Kenneth Helm
Radiation Safety Officer
