Mike,

I have previously left you a voice mail regarding RAI 63 and the opportunity to have a clarifying call with the reviewer. It may not have been retained in the voice mail system, but I would like to have a discussion with the reviewer.
The specific issue is that the reviewer requests a change to the FSAR to remove unsecured equipment from containment "prior to fuel load". The SRP guidance is "prior to operation". Additionally, the COL Item referenced may be incorrectly quoted. A clarifying call may be all we need to understand the issue.

Thanks,
Jim
