TECHNICAL ASSISTANCE REQUEST FOR REVIEW OF WESTINGHOUSE REPORT, WCAP-7332-L, "INDIAN POINT UNIT NO. 2 REACTOR INTERNALS MECHANICAL ANALYSIS FOR BLOWDOWN EXCITATION"

The Westinghouse Electric Corporation has submitted Topical Report WCAP-7332-L, "Indian Point Unit No. 2 Reactor Internals Mechanical Analysis for Blowdown Excitation", by letter dated February 24, 1970. The nonproprietary version is going to be provided in about 2 months. This report is referenced in several applications presently under review and is expected to be referenced in future applications involving Westinghouse 4-loop plants. Technical support is requested from the Division of Reactor Standards in the review of this report.

The results of the DRS review and monthly status information should be provided to R. W. Klecker who is the DRL Principal Reviewer for this report. He will prepare a Summary Statement and Monthly Status Report on this review and will send the latter to W. McDonald by the end of each month. The final report will be based on the review by DRS. From this, we will prepare the reply to Westinghouse which will be put in the PDR.

See the enclosed Topical Report Review Assignment for a discussion of the schedule and other applicable comments.
