Steve:

Please see the attachment above.

We are in the process of closing out FAQ-50. However, based on an insight that Dr. Parry, our SLS in PRA shared with us, we made a modification to it (highlighted) in YELLOW. Even though we do not believe that the change that we made affects the FAQ position, we want to give you an opportunity to contend our view.

Please share with your counterparts at EPRI etc.

Unless, at the next FAQ meeting (scheduled on next Thursday) task members bring up technically substantiated concerns, we plan to close out FAQ-50 within the next couple of weeks.

(Cheryl: Please add this Email and the attachment to public ADAMS).
