AUG 19 2009

Crint LaBrosse
Radiation Safety Officer
Plastatech Engineering, Ltd.
725 Morley Drive
Saginaw, MI 48601

Dear Mr. LaBrosse:

Enclosed is Amendment No. 07 to your NRC Materials License No. 21-26714-01 in accordance with your request by letter dated May 19, 2009, and per our telephone conversation on August 12, 2009. As per the telephone conversation, 1) a possession limit was added to License Item 8.A., 2) License Condition 12.A. was modified to replace Melvin R. Kuhl by Michael Matthews as an authorized user or supervisor of use of licensed material and 3) in accord with our current policy, Alternate Radiation Safety Officers are no longer named in the license (resulting in our deletion of former License Condition 11.B.) but may be addressed by reference of related documentation in the tie-down condition of the license, as was done in this case. Please note that the changes made to your license are printed in **bold** font.

Please review the enclosed document carefully and if there are any errors or questions, please notify the U.S. Nuclear Regulatory Commission, Region III office at (630) 829-9887 so that we can provide appropriate corrections and answers.

Please be advised that your license expires at the end of the day, in the month, and year stated in the license. Unless your license has been terminated, you must conduct your program involving byproduct materials in accordance with the conditions of your NRC license, representations made in your license application, and NRC regulations.

In accordance with 10 CFR 2.390 of the NRC's "Rules of Practice," a copy of this letter and its enclosure will be available electronically for public inspection in the NRC Public Document Room or from the Publicly Available Records (PARS) component of NRC's document system (ADAMS). The NRC's document system is accessible from the NRC Web site at http://www.nrc.gov/reading-rm/adams.html (the Public Electronic Reading Room).

Sincerely,

Loren J. Hueter
