U.S. Regulatory Commission

Dear Sirs:

11/24/80

I am writing to express our views that:

1- All 3 Indian Point Reactors should be shut down. Certainly they must at least be closed through the hearings.

2- We definitely should not pay more (on top of exorbitant rates already paid) for Con Ed's disastrous mistakes, with potential danger to all of us.

Sincerely
Mary J. Weber
