Debbie,

Here is a draft report on the San Diego I-131 case. I will proof it again, but I consider it final, unless you find something. I did finally get the pictures I asked for. Thanks for all of your efforts. I think the patient is ok. I will send in a hard copy and invoice.

Best regards,
Ron

Dear Dr. Goans,
Can you contact me at your earliest convenience to discuss a case the Region would like to refer to you? You may have already heard about an unusual I-131 administration via a g-tube at the VA San Diego. This case involves an unintended dose to the patient's stomach. Our initial calculations are pretty high. Please call me when you can.
Hope you are doing well
Best Regards,
Debbie Piskura
