PURPOSE: **I. Meeting Notice**

The U.S. Nuclear Regulatory Commission (NRC) will be hosting the Fuel Cycle Information Exchange 2010 (FCIX) from June 29 through July 1, 2010.

This will be the fifth annual hosting of this seminar, which provides an opportunity for licensees, NRC staff, and other stakeholders to exchange information and discuss issues of interest pertaining to the regulation of NRC-regulated fuel cycle facilities.

The seminar will be held in Bethesda, Maryland, at the Doubletree Bethesda Hotel & Executive Meeting Center and will be open to the public. As in the past, NRC staff, licensees and certificate holders, stakeholders, and other interested parties will be making presentations on varying subjects of interest with an opportunity for follow-up discussion on each subject.

Participants are encouraged to pre-register for the FCIX. On-line registration will begin April 1 through the NRC website at http://www.nrc.gov/public-involve/conferences.html.

II. Request for speakers and topics of discussion

At present, the program for the FCIX 2010 is being developed. The NRC is seeking speakers to discuss topics relevant to current issues in the nuclear fuel cycle. If you would like an opportunity to discuss an issue, or to offer an additional topic of discussion, please contact the staff member listed. Additionally, we ask that you provide the staff contact with a Microsoft PowerPoint version of your presentation at least 30 days prior to the seminar.

The NRC provides reasonable accommodation to individuals with disabilities where appropriate. If you need a reasonable accommodation to participate in this meeting, please notify the NRC's meeting coordinator. Determinations on requests for reasonable accommodation will be made on a case-by-case basis.

CATEGORY*: This is a **Category 3** Meeting: Public participation is actively sought for this meeting to fully engage the public in a discussion of regulatory issues.

* Commission's Policy Statement on, “Enhancing Public Participation in NRC Meetings,” (67 FR 36920) May 28, 2002.
