February 24, 2010

Richard Whitley, M.S.
Administrator
Nevada State Health Division
Suite 300
4150 Technology Way
Carson City, NV 89706

Dear Mr. Whitley:

Thank you for your November 3, 2009 and January 12, 2010 letters responding to the final Integrated Materials Performance Evaluation Program (IMPEP) report and letter dated September 16, 2009. Using supplemental information provided by Karen Beckley, Manager, Radiation Control Program; U.S. Nuclear Regulatory Commission (NRC) staff has reviewed Nevada's proposed actions in response to the recommendations made in the final IMPEP report and believe that the proposed actions adequately address the recommendations.

A periodic meeting will be conducted with your program in the June 2011 time frame. The periodic meetings were created to help NRC and Agreement States remain knowledgeable of their respective programs and to plan for the next IMPEP review. As indicated in the final IMPEP report, the next full IMPEP review is tentatively scheduled for June 2013. During the periodic meeting and at the next IMPEP review in 2013, we will evaluate the effectiveness of your response to the recommendations, as well as the implementation of your overall program.

I appreciate the positive actions that you and your staff are taking to address the recommendations. I also wish to acknowledge your continued support for the Agreement State program. I look forward to our agencies continuing to work cooperatively in the future.

Sincerely,

/RA/

Robert J. Lewis, Director
Division of Materials Safety and
State Agreements
Office of Federal and State Materials
and Environmental Management Programs

cc: Karen Beckley, Manager
Nevada Radiation Control Program
