You are correct… this should be a confirmatory item. We will document it as such. And I will run this pass the technical reviewer.

Tekia,

The response to RAI 05.04-2 was submitted in September, after the cutoff for COLA, Rev. 3 changes. The changes, as documented in the response, have been initiated as a COLA, Revision 4 change. I don't think a call is necessary for clarification; however, I am somewhat confused as to why this particular item would not be classified as a "Confirmatory Item."
