STP Nuclear Operating Company
Attn: Mr. Paul Serra, Plant Protection Manager
P.O. Box 289
Wadsworth, TX 77483

LETTER OF AGREEMENT

Dear Mr. Serra:

U.S. Coast Guard Marine Safety Unit Galveston, Texas, is prepared to respond and assist in the event of an emergency. However, Sector Corpus Christi is the primary Coast Guard office responsible for responding to an incident.

It is understood that the Emergency Operations Center (EOC) will be in Matagorda County EOC in Bay City, Texas, and that notifications to our office would come through the Matagorda County Sheriff's office or EOC. Response personnel from the Marine Safety Unit will travel to the EOC, if needed, to assist Sector Corpus Christi's with their response.

In the event of a radiological release, I request that my office be notified in addition to Sector Corpus Christi. Please provide the following information:

Date/Time of incident
On-Scene weather conditions
Downwind extent of the hazard
Extent of pollution in the water, if any

We acknowledge the intent of the STP Nuclear Operating Company to construct two additional nuclear units at the existing STP facility. The proposed Emergency Plans for STP units 3 and 4 are based upon the existing Emergency Plans for STP units 1 and 2. The Coast Guard is committed to participating any further development of any Emergency Plans, including any field demonstrations, and to execute our responsibilities under these plans in the event of an emergency.

January 24, 2007

As per our earlier discussions a Memorandum of Understanding between our office and the STP Nuclear Operating Company is not necessary. We are prepared to provide any assistance requested by Sector Corpus Christi while responding to your facilities needs. Our office can be contacted 24 hours a day at 409-766-5420.

Sincerely,

B. P. Hall

(979) 245-7145 (fax)

The American Red Cross Rio Colorado Chapter will assume the responsibilities appropriate to our authority as identified in the Matagorda County Annex W Implementing Procedure 71, Reception Center Operations (American Red Cross) and the South Texas Project Emergency Plan. These responsibilities will include:

1. Support for mass care needs of individuals displaced due to an emergency declaration at South Texas Project.

2. Responsible for the registration of individuals evacuated to a Matagorda County Reception Center.

3. Emergent Disaster Assistance for evacuated persons within the scope of applicable Red Cross services. The staff, volunteers, and management for the Matagorda County Chapter further agree to be available for participation in training, drills, and actual events upon request from STP or Matagorda County Officials.

We acknowledge the intent of the STP Nuclear Operating Company to construct two additional units at the existing STP site. The proposed Emergency Plans for STP Units 3 and 4 are based upon the existing Emergency Plans for STP Units 1 and 2 and are practicable. Our agency is committed to participate in any further development of the current Emergency Plans, including any field demonstrations, and to execute our responsibilities under these Plans in the event of an emergency.

This letter of agreement is in response to the responsibilities identified in the Emergency Management Plan for Matagorda County, Bay City, and Palacios. This letter shall remain in effect until canceled or modified. A cancellation shall be preceded by a thirty (30) day written notice.

Sincerely,

Mary P. Curry

Dear Mr. Serra:

This letter is provided to assist with the emergency preparedness program at the South Texas Project (STP). Bay City Independent School District is prepared to provide evacuation vehicle services to Matagorda County or STP in the event of an accident at the Station. Buses will be provided as requested by Matagorda County or STP officials. We will provide the requisite buses and can assist in providing additional drivers to meet the needs.

We are also prepared to provide the County with facilities for reception centers for registering and monitoring evacuees and for congregate care. It is anticipated that STP Nuclear Operating Company will provide any training and education necessary to acquaint our emergency response personnel with the plan and potential emergency conditions.

We acknowledge the intent of the STP Nuclear Operating Company to construct two additional units at the existing STP site. The proposed Emergency Plans for STP Units 3 and 4 are based upon the existing Emergency Plans for STP Units 1 and 2 and are practicable. Our agency is committed to participate in any further development of the current Emergency Plans, including any field demonstrations, and to execute our responsibilities under these Plans in the event of an emergency.

This letter of agreement is in response to the responsibilities identified in the Emergency Management Plan for Matagorda County, Bay City, and Palacios. This letter shall remain in effect until canceled or modified. A cancellation shall be preceded by a thirty (30) day written notice.

Dear Mr. Serra:

The Bay City Police Department, by this Letter of Agreement, will provide law enforcement support to the South Texas Project (STP) to assist in traffic control, personnel evacuation, or other response requiring law enforcement during an actual emergency or drill/exercise situation. Upon request, we also agree to provide peace officers for security purposes at the Joint Information Center, any alternate emergency facility within the city limits of Bay City, and/or the local radio stations. Assistance provided by the Bay City Police Department will be under the control and coordination of the Matagorda County Sheriffs Department. Our personnel can respond to the Station in approximately one hour. These services are available 24 hours a day and may be obtained by calling the Bay City Police Department at (979) 245-8500.

We acknowledge the intent of the STP Nuclear Operating Company to construct two additional units at the existing STP site. The proposed Emergency Plans for STP Units 3 and 4 are based upon the existing Emergency Plans for STP Units 1 and 2 and are practicable. Our agency is committed to participate in any further development of the current Emergency Plans, including any field demonstrations, and to execute our responsibilities under these Plans in the event of an emergency.

This Letter of Agreement is in accordance with the responsibilities identified in the Emergency Management Plan for Matagorda County, and in support of the Emergency Preparedness Program at the South Texas Project. Ref: Letter of Agreement with STP Nuclear Operating Company (STPNOC)

Dear Mr. Serra:

The Best Western Matagorda Hotel and Conference Center, under management of Country Hospitality LLC will continue to honor the contractual agreement between the hotel and the STP Nuclear Operating Company.

At this time we have an agreement with STPNOC to serve as the Joint Information Center. The public areas of the hotel are used for briefing the news media during any emergencies, which might exist at the station. There are also emergency drills conducted several times a year in which all of the meeting rooms are utilized by STPNOC for the drills.

Drills are scheduled several months in advance and last no longer than two (2) days. The rooms are reserved as any meeting planner would reserve a conference room.

In the event of an actual emergency at STP, the Joint Information Center will operate twenty-four (24) hours daily for the duration of the emergency. Activation of the Joint Information Center will involve the meeting rooms and the guest rooms. Food and beverage accommodations will be needed on a twenty four (24) hour basis, as well. There will be an immediate release of all meeting rooms and guest rooms will be released to STPNOC within twelve (12) hours of notifications. STPNOC will be issued keys to all applicable doors for security purposes.

We acknowledge the intent of the STP Nuclear Operating Company to construct two additional units at the existing STP site. The proposed Emergency Plans for STP Units 3 and 4 are based upon the existing Emergency Plans for STP Units 1 and 2 and are practicable. Our agency is committed to participate in any further development of the current Emergency Plans, including any field demonstrations, and to execute our responsibilities under these Plans in the event of an emergency.

An area in the banquet garage is to be used by STPNOC for the storage of your equipment for which you will pay $80.00 per month. Due to heat, which builds up in the storage area, there are a few items stored in the air conditioned main building. A copier is stored in the Guest Service Manager's office, while four (4) TV/VCR's, four (4) telecopiers and three (3) computer systems are stored in the telephone room.

STPNOC has installed phone lines in each of the meeting rooms for their usage and the system is totally separate from the hotels' and has provided easels and charts to the hotel which will continue to be available for any STP event at no charge.

All of the needs of the Joint Information Center will be coordinated predominately through the sales and catering office, which will in turn advise all other departments involved.

STNOCP will provide certain key personnel with badges or some type of identification to facilitate their being allowed entrance to the hotel through any possible control points. This will only be necessary in the case of an actual emergency.

Should you have any questions, please feel free to contact me.

Sincerely,

Kevin Ali

Dear Mr. Serra:

This letter of agreement is provided to assist with the emergency preparedness program at the South Texas Project (STP). In that capacity, the Bay City Plant of Celanese, Ltd. will make an effort to inform the South Texas Project control room of any release, air or surface, of a chemical which may affect the environment of the South Texas Project. Our intention would be to notify your facility as soon as possible following our determination of the release and its potential impact upon the South Texas Project.

A sample listing of the chemicals used or produced at Celanese, Ltd. Bay City Plant follows:

Vinyl Acetate	Ethylene	Butyraldehyde
Acetic Acid	Propylene	Propionaldehyde
Butanol	Carbon Monoxide	Normal Butyl Acetate
Propanol	Hydrogen	Propyl Acetate
Heptanoic Acid	Heptanal	Iso Butyl Acetate
Pelargonic Acid	Nonanal	Acetaldehyde

We acknowledge the intent of the STP Nuclear Operating Company to construct two additional units at the existing STP site.

We request that we be notified of releases from the South Texas Project which might have an adverse effect upon our operations. Notification should be made to our Security Office at (979) 241-4046 or (979) 245-2932. They remain 24-hour numbers, which are available 365 days a year. We realize that a notification from STPNOC may be a duplication of a notification from Matagorda County officials.

Ref: Letter of Agreement with STP Nuclear Operating Company (STPNOC)

Dear Mr. Serra:

In the event of an emergency at the South Texas Project (STP) and the inoperability of the Emergency Operations Facility at the station, the Bay City Service Center will be made available for use as the STP Alternate Emergency Operations Facility. The Service Center may also be used during drills and exercises, as needed, by making arrangements with Robin Brant at the Service Center at (979) 323-1660.

The City of Bay City will allow STP Nuclear Operating Company to rent Rooms 111 and 113 at the Bay City Civic Center for use by the Texas Department of State Health Services (DSHS), Radiation Control Program during drills, exercises, and events, for the normal room rental charge. STP Nuclear Operating Company will make arrangements for use of the rooms during drills and exercises by calling the Bay City Chamber of Commerce and scheduling the rooms, as for any normal Civic Center event. During natural or technological disasters, the rooms will be made available immediately, as per the management contract. The State of Texas will be allowed to continue to permanently store emergency response equipment and supplies in the closet that opens off the north side or Room 113, for no additional charge. STP Nuclear Operating Company will be allowed to maintain the State's radio antenna and radio connection and the necessary telephone lines for the State to maintain disaster operations in the rooms. The radio connections and telephone lines will continue to be paid for by the STP Nuclear Operating Company. The electrical connection for the Texas Department of State Health Services mobile laboratory will continue to be maintained on the north side of the property and paid for by STP Nuclear Operating Company. Any necessary changes to this location due to the expansion of the building or the parking lot will be coordinated with the STP Nuclear Operating Company and the State of Texas Department of State Health Services.

The Bay City Civic Center is also available for use as a Federal Response Center, should the need arise. The facility may be activated through the Bay City Chamber of Commerce or the Bay City Police Department. Arrangements for the use of the Bay City Civic Center may be made by calling the Chamber of Commerce office at (979) 245-8333.

The keys to the Service Center and the Civic Center are issued through the Bay City Police Department Dispatcher at 2201 Avenue H, Bay City, Texas. The Police Department phone number is (979) 245-8500.

1901 FIFTH STREET ❋ BAY CITY, TEXAS 77414 ❋ (979) 245-2137 ❋ FAX (979) 323-1626
CITYOFBAYCITY.ORG

The keys will be issued to DSHS or STP employees upon the presentation of a DSHS or STP badge. This service is available on a 24-hour basis.

We acknowledge the intent of the STP Nuclear Operating Company to construct two additional units at the existing STP site. The proposed Emergency Plans for STP Units 3 and 4 are based upon the existing Emergency Plans for STP Units 1 and 2 and are practicable. Our agency is committed to participate in any further development of the current Emergency Plans, including any field demonstrations, and to execute our responsibilities under these Plans in the event of an emergency.

This letter shall remain in effect until canceled or modified. A cancellation shall be preceded by a thirty (30) day written notice.

If I can be of any further assistance to you or your staff please do not hesitate to contact me. My phone number at City Hall is (979) 245-2137.

Dear Ladies and Gentlemen:

This letter certifies that the plant emergency assistance agreement between INPO and its member utilities remains in effect. In the event of an emergency at your utility, INPO will assist you in acquiring the help of other organizations in the industry, as described in Section 1 of the Emergency Resources Manual, INPO 03-001. If requested, INPO will provide the following assistance:

- Facilitate technical information flow from the affected utility to the nuclear industry.
- Locate replacement equipment and personnel with technical expertise.
- Obtain technical information and industry experience regarding plant components and systems.
- Provide an INPO liaison to facilitate interface.

This agreement will remain in effect until terminated in writing. Should you have questions, please call me at (770) 644-8212 or e-mail placejj@inpo.org.

Ref: Matagorda County Emergency Response

Dear Mr. Serra:

This annual letter covering 2007, is to affirm that Radio Station KMKS-FM plans to participate in the Emergency Alert System (EAS) for Matagorda County as its primary volunteer EAS station for declared emergencies, (*see Matagorda County Annex W Implementing Procedures, KMKS Radio Operations, Procedure 61*).

KMKS will make a reasonable effort to assist in the event of a declared emergency in Matagorda County, including emergencies at South Texas Project Electric Generating Station. KMKS will activation the alert radios by transmitting the appropriate tone from its studios or by allowing Matagorda County Emergency Officials to activate remotely from the Emergency Operations Center during declared emergencies in the event KMKS staff is not available.

We acknowledge the intent of the STP Nuclear Operating Company to construct two additional units at the existing STP site. The proposed Emergency Plan for STP Units 3 and 4 are based upon the existing Emergency Plan for STP Units 1 and 2 are practicable. KMKS is committed to participate in any reasonable further development of the current Emergency Plans *as* defined by our F.C.C. license and to execute our responsibilities under these Plans in the event of an emergency. KMKS agrees to provide resources for field demonstrations and development of Emergency Plans required by STP licensing at the rate previously provided STP.

South Texas Project Electric Generating Station is responsible for maintaining operational equipment, which is used in the activation of the STP Emergency Alert Radios.

Sincerely,

Margaret K. Sandlin

Dear Mr. Serra:

The Bay City Volunteer Fire Department currently has 45 active firefighters. These firefighters respond to alarms in Bay City as well as throughout Matagorda County 24 hours a day. We provide mutual aid to all volunteer fire departments in the county.

We acknowledge the intent of the STP Nuclear Operating Company to construct two additional units at the existing STP site. The proposed Emergency Plans for STP Units 3 and 4 are based upon the existing Emergency Plans for STP Units 1 and 2 and are practicable. Our agency is committed to participate in any further development of the current Emergency Plans, including any field demonstrations, and to execute our responsibilities under these Plans in the event of an emergency.

The services of the Bay City Volunteer Fire Department may be obtained by calling (979) 245-8313 (for emergencies) or (979) 245-8314 (for non-emergencies). If called upon, we can respond to the South Texas Project in approximately 1 hour. We will provide assistance as necessary for Spent Fuel Pool makeup and spray, as well as providing spray to effluents during an event. We will provide firefighting support services to the project in the event of an emergency or drill/exercise situation

Dear Mr. Serra:

The Palacios Volunteer Fire Department reaffirms its intent to provide fire fighting support and rescue service to the South Texas Project in the event of an emergency or drill / exercise situation. These and other responsibilities of this department are identified in the Emergency Management Plan for Matagorda County, Bay City, and Palacios. Our response is in support of that plan and the South Texas Project Emergency Plan.

The services of the Palacios Volunteer Fire Department may be obtained by calling (361) 972-3112. This is a 24-hour emergency number. Our response time to the generating station is approximately 30 minutes.

We will also be able to participate in training, drills, and exercises with proper advance notification and on request.

We acknowledge the intent of the STP Nuclear Operating Company to construct two additional units at the existing STP site. The proposed Emergency Plans for STP Units 3 and 4 are based upon the existing Emergency Plans for STP Units 1 and 2 and are practicable. Our agency is committed to participate in any further development of the current Emergency Plans, including any field demonstrations, and to execute our responsibilities under these Plans in the event of an emergency.

This letter of agreement shall remain in effect unless modified or revoked by the Palacios Volunteer Fire Department or the management of the STP Nuclear Operating Company. Modification or revocation requires an advance written thirty (30) day notice.

Dear Mr. Serra:

This letter is provided to assist with the emergency preparedness program at the South Texas Project (STP). Lyondell Chemical Company, Matagorda Plant, is prepared to inform the Control Room at STP of any release, air or surface, of a chemical which may adversely affect the environment of STP. The notifications will be made immediately upon our determination of the release and its potential impact on your site.

A sample listing of chemicals used at our facility is as follows:

Butene
Ethylene
Hexane
Titanium Tetrachloride

We acknowledge the intent of the STP Nuclear Operating Company to construct two additional units at the existing STP site. The proposed Emergency Plans for STP Units 3 and 4 are based upon the existing Emergency Plans for STP Units 1 and 2 and are practicable. Our agency is committed to participate in any further development of the current Emergency Plans, including any field demonstrations, and to execute our responsibilities under these Plans in the event of an emergency.

We request to be notified immediately of releases from the STP which may have an adverse affect upon our operations. These notifications should be made by calling the Lyondell Guard House at (979) 244-7177. This is a twenty-four hour emergency notification number and is available 365 days a year. We realize that a notification from STPNOC may be a duplication of a notification from Matagorda County Officials, but could be important in the event of a radio communication failure.

This letter shall remain in effect unless modified or revoked. A modification or revocation requires a thirty-day prior notice.

Dear Mr. Serra:

We, Matagorda County, Bay City, and Palacios, jointly and mutually agree to support the South Texas Project Nuclear Operating Company during emergencies, drills, and exercises. Our emergency response will be based upon the responsibilities and guidance contained within the Emergency Management Plan for Matagorda County, Bay City, and Palacios, and the associated procedures, rules, regulations, and applicable laws.

We acknowledge the intent of the STP Nuclear Operating Company to construct two additional units at the existing STP site. The proposed Emergency Plans for STP Units 3 and 4 are based upon the existing Emergency Plans for STP Units 1 and 2 and are practicable. Our agency is committed to participate in any further development of the current Emergency Plans, including any field demonstrations, and to execute our responsibilities under these Plans in the event of an emergency.

Please communicate your needs for emergency assistance to the Matagorda County Sheriff's Department at (979) 245-5526, stating the situation at hand and the emergency assistance you desire. Every effort will be made by Matagorda County, Bay City, and Palacios to work with you to save lives, minimize damage, alleviate suffering, and to restore and rehabilitate property and society, within our respective jurisdictions.

We assume the training and education necessary to acquaint our emergency response personnel with the plan and potential emergency conditions, which will be available either from the State of Texas or your staff. Please coordinate that training with Bob Watts, Matagorda County Emergency Management Coordinator at (979) 323-0707.

Ref: Letter of Agreement with STP Nuclear Operating Company (STPNOC)

Dear Mr. Serra:

This letter reaffirms our agreement and intent for Matagorda County EMS to provide emergency pre-hospital medical care and ambulance service for the South Texas Project (STP) should natural or human-origin emergencies occur. Our service, which is available 24 hours per day, will be provided according to the procedures established in the STP Emergency Plan. We have advanced life support capability for patients who require it. Calling (979) 323-7911 can activate services.

Matagorda County EMS can, under normal conditions, respond to emergencies at STP within approximately 30 minutes. Our staff is available to participate in training, drills and exercises upon request from STPNOC officials.

We acknowledge the intent of the STP Nuclear Operating Company to construct two additional units at the existing STP site. The proposed Emergency Plans for STP Units 3 and 4 are based upon the existing Emergency Plans for STP Units 1 and 2 and are practicable. Our agency is committed to participate in any further development of the current Emergency Plans, including any field demonstrations, and to execute our responsibilities under these Plans in the event of an emergency.

This letter of agreement shall remain in effect unless modified or revoked by the management of the County of Matagorda, Matagorda County EMS or STPNOC. Any modification or revocation of the agreement will require (30) day advance notice in writing.

Sincerely,

Fred Wilkins, Director of Operations

Ref: Letter of Agreement with STP Nuclear Operating Company (STPNOC)

Dear Mr. Serra:

This letter affirms our agreement and intent for the Matagorda County Environmental Health Department to assist STPNOC, with service available on a 24 hour per day basis, or as needed, during an emergency situation at STP. We are committed to ensure the environmental health and safety of the public and STPNOC nonessential employees by assisting the American Red Cross in opening and operating a Reception Center(s) and a monitoring and decontamination facility or facilities when the need arises.

We will maintain the necessary inventory of supplies to accommodate such an operation, with your staff's assistance and with financial assistance from the STPNOC. We anticipate you will provide the necessary dosimetry and the reading of thermoluminescent dosimetry in your laboratory.

My staff is available to participate in training, drills and exercises upon request from STPNOC officials and/or Matagorda County emergency management officials. My staff will also assist STPNOC in training radiation monitors for participation at the Reception Center(s).

We acknowledge the intent of the STP Nuclear Operating Company to construct two additional units at the existing STP site. The proposed Emergency Plans for STP Units 3 and 4 are based upon the existing Emergency Plans for STP Units 1 and 2 and are practicable. Our agency is committed to participate in any further development of the current Emergency Plans, including any field demonstrations, and to execute our responsibilities under these Plans in the event of an emergency.

This letter of agreement shall remain in effect until cancelled or modified. Any modification or revocation of the agreement will require (30) day advance notice in writing. If I may be of further assistance, please do not hesitate to call.

Sincerely,

Ed Schulze

Dear Mr. Serra:

Matagorda County Hospital District and its Medical Staff take pride in being available to provide medical care when needed for both conventional and radiological injuries that occur in emergency or drill/exercise situations. Matagorda General Hospital shall serve as the primary response organization with secondary support provided by the Palacios Community Medical Center. Matagorda County Hospital District shall contract with the Palacios Community Medical Center to maintain Palacios Community Medical Center as a backup facility. Matagorda County Hospital District shall ensure that the Palacios Community Medical Center complies with the needs of the STPNOC. In that context, we will remain responsible and accountable for the execution of training, drills, and exercises at Palacios Community Medical Center.

Please note that the emergency rooms at both facilities are staffed by physicians (at times physician extenders at Palacios Community Medical Center) twenty-four hours per day and are equipped to handle emergencies arising in Matagorda County. Additionally, to further support the South Texas Project Emergency Plan, the facility in Bay City includes a unique decontamination room for these related emergencies. Services of Matagorda General Hospital and the Palacios Community Medical Center may be obtained by calling the Matagorda General Hospital Emergency Room at (979) 245-6383.

It is my understanding that STPNOC will continue to provide any training needed by the staff of Matagorda County Hospital District and the Palacios Community Medical Center in addition to any special equipment required for the safe provision of contaminated/injured emergency medical service.

We acknowledge the intent of the STP Nuclear Operating Company to construct two additional units at the existing STP site. The proposed Emergency Plans for STP Units 3 and 4 are based upon the existing Emergency Plans for STP Units 1 and 2 and are practicable. Our agency is committed to participate in any further development of the current Emergency Plans, including any field demonstrations, and to execute our responsibilities under these Plans in the event of an emergency.

This letter of agreement shall remain in effect until cancelled or modified. Any modification or revocation of the agreement will require (30) day advance notice in writing.

Sincerely,

Ref: Letter of Agreement with STP Nuclear Operating Company (STPNOC)

Dear Mr. Serra:

This letter reaffirms that that Matagorda County Sheriff's Office is prepared to assist the STP Nuclear Operating Company in responding to an emergency, or participating in training and drill/exercise.

The Sheriff's Office may be contacted by calling the communications dispatcher telephone (979) 245-5526 any time, 24-hours a day, 365 days a year. My personnel are available by Sheriff's dispatcher via telephone and radio for dispatching to the STP or a designated location upon the request.

The Sheriff's Office is the primary Law Enforcement Agency in the county. I have access to the personnel and resources of the Bay City and Palacios Police Department, the Texas Department of Public Safety, the Law Enforcement Officers of Texas Parks and Wildlife Department, and the National Guard, should the situation extend for several days or require several officers. The Emergency Management Plan of Matagorda County, Bay City and Palacios, identifies the responsibilities for the Sheriff's Office as Law Enforcement, evacuation/traffic control, communications, warning/notification and maintenance of the Matagorda County Emergency Operations Center. We shall respond as required in the plan and applicable law to emergencies, and participate in training, drills, and exercises.

We acknowledge the intent of the STP Nuclear Operating Company to construct two additional units at the existing STP Site. The proposed Emergency Plans for STP Units 3 and 4 are based upon the existing Emergency Plans for STP Units 1 and 2 and are practicable. Our agency is committed to participate in any further development of the current Emergency Plans, including any field demonstrations, and to execute our responsibilities under these Plans in the event of an emergency.

This letter of agreement shall remain in effect unless modified or revoked by the Sheriff or the management of the STP Nuclear Operating Company. Modification or revocation requires an advance written thirty (30) day notice.

Sincerely,

James D. Mitchell, Sheriff

Dear Mr. Serra:

Memorial Hermann agrees to accept patients from the South Texas Project on a 24-hour, 7-day a week basis. We understand these patients may present as externally radiologically contaminated or may have received internal contamination. We understand these [patients may arrive by air ambulance or conventional ambulance. We feel confident of our ability to handle and treat any type of injury we may receive from the South Texas Project (STP).

We agree to and will accept and treat various types of patients needing emergency care or for long-term monitoring of internal or acute doses of radiation.

We acknowledge the intent of the STP Nuclear Operating Company to construct two additional units at the existing STP site. The proposed emergency plans for STP Units 3 and 4 are based upon the existing Emergency Plans for STP Units 1 and 2 and are practicable. Our agency is committed to participate in any further development of the Emergency Plans, including any field demonstrations, and to execute our responsibilities under these Plans in the event of an emergency.

This letter of agreement shall remain in effect unless modified or revoked by the Memorial Hermann Hospital or the management of the STP Nuclear Operating Company. Modification revocation requires an advance written thirty (30) day notice.

Dear Mr. Serra:

This letter is to affirm that Palacios Independent School District is willing to assist with the emergency preparedness program at the STP Nuclear Operating Company. Palacios Independent School District is prepared to provide buses for evacuation services to Matagorda County or STP in the event of an accident at the station. Buses will be provided, as requested by the, Matagorda County Judge or STP Nuclear Operating Company officials. We are also prepared to provide the County with facilities for reception centers for registering and monitoring evacuees and for congregate care.

The STP Nuclear Operating Company will provide all training and education necessary to inform and familiarize our emergency response personnel with the plan and potential emergency conditions.

We acknowledge the intent of the STP Nuclear Operating Company to construct two additional units at the existing STP site. The proposed Emergency Plans for STP Units 3 and 4 are based upon the existing Emergency Plans for STP Units 1 and 2 and are practicable. Our agency is committed to participate in any further development of the current Emergency Plans including any field demonstrations, and to execute our responsibilities under these Plans in the event of an emergency.

This letter of agreement is in response to the responsibilities identified in the Emergency Management Plan for Matagorda County, Bay City, and Palacios.

This letter shall remain in effect unless modified or revoked by the Palacios Independent School District or the management of the STP Nuclear Operating Company. Modification or revocation requires an advance written thirty (30) day notice.

P.O. Box 289
Wadsworth, Texas 77483

Ref: Letter of Agreement with STP Nuclear Operating Company (STPNOC)

Dear Mr. Serra:

This letter is submitted as affirmation of Texas Department of State Health Services commitment to support off-site emergency preparedness and response activities with respect to the South Texas Project
(STP).

To repeat our commitment as stated in previous letters of agreement, the DSHS Radiation Control Program, is required by Government Code Chapter 418, Emergency Management, and by the Texas Emergency Management Plan to perform advance planning and respond appropriately to accidents within the state. Tab 1 of Annex D, Radiological Emergency Response, of the Texas Emergency Management Plan provides necessary guidelines, procedures and instructions for emergency situations involving fixed nuclear facility accidents. Contained within the tab, both in the introduction, which is generic to fixed nuclear facilities, and in Chapter Two, which is site-specific to STP, are specific duties, assignments and responsibilities. Among these are:

Radiological monitoring within the plume exposure and ingestion exposure pathways
Accident classification system
Radiation Program response levels
Accident assessment methods and procedures
Contamination survey techniques
Communications
Environmental sample analysis
Personnel monitoring and decontamination
Recovery from an accident

Area decontamination
Training
Exercises and drills

The DSHS Radiation Control Program will respond to emergencies at STP with sufficient qualified personnel and equipment to fully support local government in its mitigation and recovery effort. The Agency will maintain in close liaison with STP, utilizing facilities provided at the Near-site Emergency Operations Facility. Notification of our organization can be made 24 hours a day by calling (512) 458-7460.

We acknowledge the intent of the STP Nuclear Operating Company to construct two additional units at the existing STP site. The proposed Emergency Plans for STP Units 3 and 4 are based upon the existing Emergency Plans for STP Units 1 and 2 and are practicable. Our agency is committed to participate in any further development of the current Emergency Plans, including any field demonstrations, and to execute our responsibilities under these Plans in the event of an emergency.

The DSHS Radiation Control Program has estimated the onsite response time to emergencies at the station to be approximately 4 hours, and the full Emergency Response Team response time to field locations around the station to be approximately 8 hours.

This agreement shall remain in force until the DSHS Radiation Program Officer modifies it in writing. It shall be reviewed annually and updated as appropriate.

Sincerely,

Richard A. Ratliff, P.E., L.M.P.,
Radiation Program Officer

October 27, 2006

Mr. Paul Serra
STP Nuclear Operating Company
Manager, Emergency Response, Access and Communication
P. O. Box 289
Wadsworth, Texas 77483

Ref: Letter of Agreement with STP Nuclear Operating Company, Post Accident Analysis, NUREG-0730

Dear Mr. Serra:

In exchange for a similar agreement from STP Nuclear Operating Company, project manager for the South Texas Project (STP), Comanche Peak Steam Electric Station (CPSES) will in the event of an emergency at (STP) and loss of onsite analysis capabilities, support STP by performing selected post accident analysis in accordance with NUREG-0737.

CPSES will permit 24-hour per day notification for emergency sample shipment. The Chemistry Manager is the point of contact for notification that STP is shipping post accident samples to CPSES. The manager can be reached by calling the hot chemistry lab which is staffed 24-hours per day at (254) 897-5139.

CPSES will endeavor to complete, within time and dose restraints, the following analysis within 24-hours of receipt and, throughout the accident, analyze two of each sample daily for seven days and weekly thereafter.

1. Liquid gamma isotopic
2. Gaseous gamma isotopic
3. Particulate/Iodine gamma isotopic
4. RCS Chloride
5. RCS Boron

Sample containers and instructions for volume and dilutions will be provided to STP by CPSES to ensure sample geometry compatibility. Geometrics and dilutions will

CPSES-2006002213
October 27, 2006

be in the appropriate ranges to meet TXU Power instrument capabilities and to minimize radiation doses to CPSES personnel.

Samples requiring gamma isotopic analysis and unused portions of liquid samples of Boron and Chloride analysis will be retained at CPSES for retrieval by STP.

We acknowledge the intent of the STP Nuclear Operating Company to construct two additional units at the existing STP site. The proposed Emergency Plans for STP Units 3 and 4 are based upon the existing Emergency Plans for STP Units 1 and 2 and are practicable. Our agency is committed to participate in any further development of the current Emergency Plans, including any field demonstrations, and to execute our responsibilities under these Plans in the event of an emergency.

Any costs incurred by TXU Power relative to providing this service will be indemnified by STP Nuclear Operating Company. Additionally, STP Nuclear Operating Company agrees to protect, defend, indemnify and hold harmless TXU Power, CPSES participants, and their parent corporations, subsidiaries, affiliates and their respective officers, directors, employees, and agents or any of them free and harmless from and against any and all claims, demands, causes of action, suits or other litigation (including all costs thereof and attorneys' fees) of every kind and character arising as a result of, incident to, arising out of, or in connection with the work performed or to be performed by TXU Power hereunder, all regardless of whether or not TXU Power CPSES participants, or their parent corporations, subsidiaries, affiliates, respective officers, directors, employees or agents are negligent in whole or in part and even when caused by the sole fault of TXU Power, CPSES participants or their parent corporations, subsidiaries or affiliates or their respective officers, directors, employees or agents.

Sample shipment will be the responsibility of STP.

Sincerely,

Rafael Flores

Subj: LETTER OF AGREEMENT

Dear Mr. Serra:

This is in regards to the emergency plan for your South Texas Project in Matagorda County, Texas. In the event of an emergency, the U. S. Coast Guard Sector Corpus Christi, Texas is prepared to implement response and vessel traffic control measures as deemed appropriate to the emergency situation.

In the event of an emergency, the following information will aid us in determining a proper course of action:

- A brief description of the emergency or incident;
- Date/Time of the incident:
- On-Scene weather condition;
- Down wind extent to the hazard;
- Extent of pollution in the water, if any, and,
- Any other information that could impede our response.

This information will be used to determine Coast Guard actions under my authority as Captain of the Port, under the Ports and Waterways Safety Act, to impose vessel traffic control measures such as Safety and Security Zones or waterway closures. Vessel traffic control measures may be implemented along the Colorado River, Gulf Intra-coastal Waterway and other navigable waters west of the Colorado River affected by the emergency. Also under this authority, the Captain of the Port may implement "access control" measures. Vessel traffic control or access control measures will be imposed immediately.

The Coast Guard will also coordinate the enforcement of these vessel traffic or access control measures established by the Captain of the Port. Response times for on-site enforcement or for Coast Guard assets to arrive on-scene could be as long as 4 hours, depending on resource availability.

Subj: LETTER OF AGREEMENT

3000
October 3, 2006

We understand that the Emergency Operations Center will be in the Matagorda County Emergency Response Operations Center in Bay City, Texas and that notifications to our office would come through the Matagorda County Sheriffs Office or Emergency Operations Center.

We acknowledge that intent of the South Texas Project (STP) Nuclear Operating Company to construct two additional units at the existing STP site and that the new units will have the same emergency plan that is currently in place with the existing units. Our agency is committed to participate in any further development of the current Emergency Plans and to execute our responsibilities under these Plans in the event of an emergency.

A Coast Guard Liaison from the Sector will travel to the Emergency Operations Center to coordinate Coast Guard activities. Response times for Coast Guard personnel to reach the Emergency Operations Center could be as long as 4 hours. The 24 hour notification number for this office is (361) 939-6393.

Sincerely,

JOHN H. KORN
Captain, U. S. Coast Guard
Captain of the Port

Dear Mr. Serra:

This letter of agreement is to affirm that the National Weather Service (NWS) plans to participate in the Emergency Alert System (EAS) for Matagorda County as its primary volunteer EAS station for declared emergencies.

National Weather Service will make a reasonable effort to assist in the event of a declared emergency in Matagorda County, including emergencies at South Texas Project. The National Weather Service will activate the National Weather Service radios by transmitting the appropriate code from its Weather Center or by allowing Matagorda County Emergency Officials to activate directly from the Emergency Operations Center during declared emergencies.

We acknowledge the intent of the STP Nuclear Operating Company to construct two additional units at the existing STP site. The proposed Emergency Plans for STP Units 3 and 4 are based upon the existing Emergency Plans for STP Units 1 and 2 and are practicable. Our agency is committed to participate in any further development of the current Emergency Plans, including any field demonstrations, and to execute our responsibilities under these Plans in the event of an emergency.

This letter of agreement is in response to the responsibilities identified in the Emergency Management Plan for Matagorda County, Bay City, and Palacios and the STP Emergency Plan. This letter shall remain in effect until canceled or modified. A cancellation shall be preceded by a thirty (30) day written notice.

Sincerely,

William L. Read
Meteorologist in Charge

Mr. Paul Serra
STP Nuclear Operating Company
Manager, Emergency Response, Access and Communication
P.O. Box 289
Wadsworth, Texas 77483

Ref: Letter of Agreement with STP Nuclear Operating Company (STPNOC)

Dear Mr. Serra:

AREVA NP Inc. agrees to provide STP Nuclear Operating Company with emergency response sample analysis services and/or materials associated with laboratory services. AREVA NP Inc. can provide the capability to respond on a 24-hour-a-day, 7-day-a-week basis.

We acknowledge the intent of the STP Nuclear Operating Company to construct two additional units at the existing STP site. The proposed Emergency Plans for STP Units 3 and 4 are based upon the existing Emergency Plans for STP Units 1 and 2. AREVA NP is committed to participate in any further development of the current Emergency Plans, including any field demonstrations, and to execute our responsibilities under these Plans in the event of an emergency. The costs for participating in Emergency Plan drills and exercises will be determined upon request of laboratory participation.

Please note that STP Nuclear Operating Company would be responsible for the sample analysis costs as well as the radwaste disposal costs of accident sample materials. Sample analysis prices will be established at the time services are requested. The standard laboratory Terms and Conditions provided in Attachment A will apply to this work scope. All emergency response sample analysis services will be performed in accordance with AREVA NP Environmental Laboratory Procedure 521, "General Procedure for Processing Emergency Response Samples." A copy of this procedure is provided as Attachment B.

AREVA NP Inc. appreciates the opportunity to be of service to the STP Nuclear Operating Company. Please do not hesitate to contact the Laboratory Manager, Jeffrey Raimondi, at (508) 573-6651 if you have any questions regarding these services.

Sincerely,

H. Lee Williams
Vice President
Engineering Services

TERMS AND CONDITIONS

WARRANTY

AREVA NP Inc. (AREVA NP) warrants that the services to be provided under this Agreement will be performed by qualified personnel in a workmanlike manner consistent with generally accepted standards and practices. AREVA NP shall reperform any service that fails to meet this warranty within ninety (90) days after performance of such service, provided that written notice of any claimed defect is given to AREVA NP within thirty (30) calendar days from the date the nonconformance is detected by Purchaser. If reperformance is impractical or impossible, then AREVA NP shall refund the price paid for the nonconforming services.

THE WARRANTIES AND REMEDIES SET FORTH IN THIS ARTICLE ARE EXCLUSIVE AND NO OTHER WARRANTY OR REMEDY OF ANY KIND, WHETHER STATUTORY, WRITTEN, ORAL, EXPRESS, OR IMPLIED, INCLUDING WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE AND WARRANTIES ARISING FROM COURSE OF DEALINGS OR USAGE OF TRADE, SHALL APPLY.

AREVA NP ASSUMES NO LIABILITY WITH RESPECT TO THE USE OF, OR FOR DAMAGES RESULTING FROM THE USE OF, ANY INFORMATION, METHOD OR PROCESS DISCLOSED UNDER THIS CONTRACT.

LIMITATION OF LIABILITY

AREVA NP shall not be liable whether arising under contract, tort (including negligence), strict liability, or otherwise, for loss of anticipated profits, claims of Purchaser's customers, subcontractors, vendors or suppliers, governmental fines or penalties against Purchaser, loss of use of capital or revenue, cost of money, or for any special, indirect, incidental, or consequential loss or damage of any nature arising at any time from any cause whatsoever.

The total liability of AREVA NP, whether in contract, tort (including negligence), strict liability, or otherwise, shall not exceed the price of this Contract.

The provisions of this Article shall apply notwithstanding any other provision of this Contract.

RIGHTS IN DATA

Performance of the Work contracted for, shall in no way invest the Purchaser with any rights in the developments or inventions made by AREVA NP or background data and patent rights of AREVA NP. AREVA NP shall retain the right to use the information developed hereunder in its business but shall only use proprietary information of Purchaser for purposes of this contract and shall not disclose any such information in violation of its proprietary agreement with Purchaser.

TERMS OF PAYMENT

Pricing shall be in accordance with the pricing schedules included herein. Purchaser shall make payments within thirty (30) days from the date of receipt of AREVA NP's invoice. Any amount remaining unpaid after thirty (30) days shall bear interest from the due date of the invoice at a rate of one percent (1%) per month or the maximum allowed by law, whichever is the lesser. All taxes shall be to Purchaser's account other than those levied on wages/salaries of AREVA NP's employees or taxes on AREVA NP's net income.

DELAY IN PERFORMANCE

AREVA NP shall not be liable for any expense, loss or damage resulting from delay or prevention of performance caused by fires, floods, Acts of God, strikes, labor disputes, labor shortages, inability to secure materials or equipment, fuel or other energy shortages, riots, thefts, accidents, transportation delays, acts or failure to act of Government or Purchaser, delay in obtaining licenses, or major equipment breakdown, or any other cause whatsoever, whether similar or dissimilar to those enumerated above, beyond the reasonable control of AREVA NP. In the event of any delay arising by reason of any of the foregoing, the time for performance shall be equitably adjusted.

NUCLEAR APPLICATIONS

For any Agreement entered into by Purchaser that transfers to a third party any output of the Work hereunder, Purchaser shall endeavor to include the following for the protection of Purchaser, AREVA NP and their suppliers and subcontractors:

The output of the Work hereunder shall not be furnished, installed in, or used or operated in connection with, or in any manner associated with a nuclear or atomic energy activity or facility unless (a) the facility owner has agreed to enter into an agreement of indemnification with the United States Nuclear Regulatory Commission, or its successor government organization, if required under Section 170 of the Atomic Energy Act of 1954 as amended, and (b) the facility owner has agreed to obtain such policy or policies of insurance or has provided financial protection of such type and in such amounts as the United States Nuclear Regulatory Commission, or its successor government organization, shall require as a condition the facility owner's entering into the indemnity agreement referred to in (a) above. AREVA NP, its suppliers and subcontractors, shall be included among the persons protected under (b) above. Further, with respect to the insurance secured from the nuclear energy insurance pools, the facility owner shall secure and maintain any and all of the amendatory endorsements available at any time which extend the insurance in terms of the ultimate user's coverage and/or its limits of liability. The facility owner shall agree to maintain such indemnification agreement, and insurance or other financial protection in full force and effect, so long as the output from the work to be furnished hereunder shall be used.

In addition, Purchaser will endeavor to obtain, under such agreement with the nuclear power plant owner, a waiver of liability for any damage to property resulting from a defect in the licensed technology.

INTEGRATION

The AREVA NP's proposal and any resulting Contract are based solely on the Purchaser's acceptance of the terms and conditions set forth herein and the Purchaser is hereby notified that the AREVA NP expressly objects to any additional or different terms and conditions which may be contained in any purchase order issued pursuant hereto. The Purchaser agrees that this proposal and these terms and conditions constitute the entirety of the Contract between the AREVA NP and the Purchaser and all previous communications, whether verbal or written, are hereby abrogated and withdrawn. Any purchase order issued by the Purchaser shall be for record and billing purposes only and any report or products received by the Purchaser in connection herewith shall be deemed to be delivered on the basis of the terms and conditions set forth herein.

TERMINATION

AREVA NP shall have the right to terminate this Contract upon ninety (90) days advance written notice to Purchaser. AREVA NP shall be entitled to compensation for all work performed through the date of termination. At the request of Purchaser, AREVA NP will provide Purchaser a list of qualified replacement laboratories.

Environmental Laboratory Procedure 521,
"General Procedure for Processing Emergency Response Samples."

Prepared By		Procedure No.	521
LIMS Coordinator	N/A	Revision No.	4
Reviewed By		Approval Date	11-03-03
QA Officer		Effective Date	11-03-03
E-LAB Director		Next Review Date	11-03-08

GENERAL PROCEDURE FOR PROCESSING EMERGENCY RESPONSE SAMPLES

All of the materials contained in this procedure shall be considered proprietary, business confidential, and/or competition sensitive information. All requests to release part or all of this procedure to organizations or persons outside of Framatome ANP must have the prior approval by the Laboratory Director.

PRINCIPLE OF METHOD

The Framatome ANP Environmental Laboratory (E-LAB) will analyze environmental samples as part of the ingestion pathway evaluation following an emergency situation at a client facility that results in the release of radioactivity to the environment. Samples will be received and handled as radioactive samples by the Radiation Safety Officer (RSO). Preliminary screening will be performed by the RSO. The samples will be prepared for immediate gamma analysis by the sample preparation staff. As a guide for determining sample count times, unless otherwise specified, ingestion pathway Minimum Detectable Concentrations (MDCs) for a dose to the general population of 30 mrem whole body and 100 mrem to the critical organ based on a two-week ingestion/inhalation period will be used. Disposal of any emergency response samples remains the responsibility of the client facility.

All result reports will be forwarded to the appropriate radiological data coordinator at the client facility after review by the cognizant Environmental Laboratory staff.

12. E-LAB Procedure 490, "Operation and Calibration of the LKB Model 1415 Liquid Scintillation Counter"

APPARATUS

1. Absorbent paper

2. Proper Personal Protective Equipment (PPE), safety glass, lab coat or apron, and disposable gloves

PROCEDURE

As used in this procedure, the RSO is the Radiation Safety Officer or his/her designated alternate.

A. Receipt

1. All samples will be received by the RSO at the shipping/receiving area of the Environmental Laboratory. All emergency response samples will be treated as radioactive samples.

2. Radiation surveys will be performed by the RSO in accordance with Reference 1.

3. The RSO will forward the sample paperwork to the cognizant record keeping staff so that the Laboratory Sample Number (LSN) and appropriate analysis worksheets can be issued immediately for the sample in accordance with Reference 2 or 3.

4. The radiation survey is performed for two primary reasons:

NOTE: The survey will be used to prioritize sample analysis. The highest activity samples will be analyzed first.

All samples with >500 cpm should be processed in the Part 50/61 Area. All other samples with a count rate >MDCR but <500 cpm can be process in the Environmental Area only with approval of the RSO or Laboratory Director.

a. The RSO shall indicate the priority status and clearly indicate on the sample worksheet(s) if the sample will be analyzed in the Environmental or Part 50/61Area.

b. Priority samples receive green dots. In the center of the green dot indicate the analysis laboratory as Environmental (E) or Part 50/61 (P).

NOTE: To determine the corrected counts per minute, ccpm, the survey instrument background count rate is subtracted from the survey measurement gross count rate.

B. Sample Preparation

1. Under normal circumstances, sample preparation should only be performed in the Part 50/61 laboratories. The Laboratory Director or the RSO may approve sample preparation and analysis in the low level analysis facilities of the Laboratory.

2. Proper PPE must be worn while preparing samples for gamma isotopic analysis.

3. Ensure that absorbent paper covers the work area.

4. If chemical preservatives have not been added to the sample, add the appropriate reagents to the sample in accordance with Reference 4.

5. Prepare samples for gamma spectrometry analyses according to Reference 5 with the following exceptions:

   a. Milk: Do <u>not</u> delay for eight days.

   b. Water: Do <u>not</u> delay for eight days.

   c. Forage: For gamma isotopic analyses, do <u>not</u> ash the sample. Place the sample, in its "wet" form, in the largest calibrated counting geometry. For radiostrontium analyses, take an aliquot and analyze according to Reference 6.

   d. If applicable, use geometries for gamma isotopic analyses that allow for the use of the gamma sample changers.

6. In order to prevent cross contamination of samples, change gloves between preparation of samples. Absorbent paper should also be changed between samples if deemed necessary by the RSO.

7. Place the samples in plastic bags and seal the bag prior to transporting the sample to the appropriate counting area.

C. Sample Counting

1. Gamma Spectrometry Analysis

   a. Analyze samples according to References 7, 8, and 9.

   b. Using Table 1 as a guide (Reference 10), analyze the sample to meet the listed MDCs.

c. If a sample requires a strontium analysis, return the sample to the chemistry area and notify the cognizant chemist that the sample is available.

d. Results will be reported to the appropriate individual at the client facility after cognizant senior Environmental Laboratory staff has reviewed the results.

2. Strontium Analysis

a. Analyze the sample according to References 11 or 12.

b. Using Table 1 as a guide, analyze the sample to meet the listed MDCs.

c. Results will be reported to the appropriate individual at the client facility after cognizant senior Environmental Laboratory staff has reviewed the results.

FINAL CONDITIONS

Samples are processed in accordance with this procedure and results are transmitted to the appropriate radiological data coordinator at the client facility.

STP7013

STP Nuclear Operating Company

Office Memorandum

To: L. S. Barton

February 1, 2007
File No.: D35.08/D43

From: K. M. Dudley KMD

Subject: ***2007 Emergency Response Agreement***
American Nuclear Insurers

STP Nuclear Operating Company purchases Nuclear Energy Liability Insurance to alleviate the immediate financial burden that may be incurred by members of the public due to evacuation and relocation associated with any nuclear energy related incident here at the station. The station currently procures this coverage from American Nuclear Insurers (ANI).

Through this policy, ANI has agreed to assume responsibility, except where excluded by the policy, for promptly assisting members of the public who may be adversely affected by a nuclear energy related incident here at the station. ANI has committed to have their representatives on the scene, prepared to commence the distribution of emergency funding at the earliest possible time.

The attached endorsements shall serve as proof of evidence of the agreements and transfer of risk through December 2007 as follows:

1. Primary Financial Protection
   - Nuclear Energy Liability Insurance Association's Policy Number NF-307
2. Secondary Financial Protection
   - Nuclear Energy Liability Insurance Association's Policy Number N-0113
   - Nuclear Energy Liability Insurance Association's Policy Number N-0116
3. Suppliers & Transporters
   - Nuclear Energy Liability Insurance Association's Policy Number NS-0504

If you require additional, information please contact me at extension 8698 or Ron Hyde at extension 7992.

STP NUCLEAR OPERATING COMPANY
SOUTH TEXAS PROJECT ELECTRIC GENERATING STATION UNITS 1 AND 2
Westinghouse Emergency Response Plan Site Contacts

Reference: Letter of Agreement with STP Nuclear Operating Company (STPNOC)

Dear Mr. Serra:

Westinghouse Electric Company, LLC will provide general services related to nuclear steam supply operation during and following an accident situation. Westinghouse provides a capability to respond on a 24 hour a day basis. The contract that enacts this agreement is the General Service Agreement No. GSA 0023Q (latest Addendum). Attached is the latest contact list for STPNOC should such an event occur.

We acknowledge the intent of the STP Nuclear Operating Company to construct two additional units at the existing STP site. The proposed Emergency Plans for STP Units 3 and 4 are based upon the existing Emergency Plans for STP Units 1 and 2 and are practicable. Our agency is committed to participate in any further development of the current Emergency Plans, including any field demonstrations, and to execute our responsibilities under these Plans in the event of an emergency.

Westinghouse appreciates the opportunity to be of service to the STP Nuclear Operating Company. If there are any questions, or if further information is required regarding this matter, please do not hesitate to contact me.

Very truly yours,

WESTINGHOUSE ELECTRIC COMPANY
