6/27/08 SMC – Agreement status Review
1:30

Dave Smith — Patti Swann
David White — Allen Fetter
Rebecca Tadesse

Sept/Oct 2009 for NJ to get status

Agreement state selects what licenses types they will take

NJ says they will take Part 40 licenses which means Shieldalloy

SMC feels they are confident. They believe it will be successful.

NJ have to have compatability with NRC regulations NJ compatibility C which can make it more conservative

What happens if DP is approved first & then NJ becomes an agreement state. DP will stand but it will be transferred to NJ jurisdiction

What happens if NJ refuses to accept Shieldalloy under LTC?

Does public have the opportunity to object
There is an opportunity when it goes to the Commission to comment on.

Last 18 months spent $2 x10^6
