Subject: RE: Renewal of Nuclear Regulatory Commission (NRC) Exempt-Distribution Materials License No. 43-23865-01E

Categories: Green Category

Mr. Struckmeyer:
Late yesterday, I completed further investigation regarding the status of the letter acknowledging receipt of Renewal Application for Nuclear Regulatory Commission (NRC) Exempt-Distribution Materials License No. 43-23865-01E and request for additional information (Mail Control No. 022772).

Unfortunately, I could not confirm receipt of this NRC letter. The NRC-originated letter I referenced in my 10 December 2009 email was the renewal application that was submitted to NRC. I clearly recalled this correspondence since during preparation of the renewal application, NRC was contacted and provided guidance on updating facility information. This is the document I was thinking about in my initial response to you.

If possible, please kindly email a copy of the NRC letter that acknowledged receipt of our renewal application and that requests additional clarification/information. This will allow us to promptly provide the additional information requested.

I apologize for my miscommunication and for any inconvenience this may cause.

Thank you and kind regards.
Tom

Mr. Struckmeyer.

Thank you for contacting me and letting me know that you have not received the required additional information. I thought we were processing NRC's request for additional information, but I will verify the status, promptly.

Also, I am not sure why your email was designated as "undeliverable" since your email is addressed correctly. I have forwarded this information to Ms. Brenda Shelkey.
Thank you and kind regards.
