DEPARTMENT OF THE NAVY
COMMANDER, NAVY INSTALLATIONS COMMAND
716 Sicard Street S.E., Suite 1000
Washington, D.C. 20374-5140

IN REPLY REFER TO
5100
Ser N3/10U53260
01 Mar 10

From: Commander, Navy Installations Command, Director of Operations (N3)
To: Executive Secretary, Naval Radiation Safety Committee, Radiological Controls and Health (OPNAV455)

Subj: RESPONSE TO U.S. NUCLEAR REGULATORY COMMISSION DEMAND FOR INFORMATION AND REPORTING DAMAGED DEVICES CONTAINING RADIOACTIVE MATERIAL

Ref: (a) USNRC Ltr EA-09-001 of 16 Jan 2009

Encl: (1) CNIC Tritium Exit Sign Inventory

1. Reference (a) requires Commander, Navy Installations Command (CNIC) to conduct an inventory of tritium exit signs that are, or have been, under CNIC control and explain how compliance with U.S. Nuclear Regulatory Commission general license requirements will be maintained.

2. The inventory portion of CNIC response to reference (a) is complete. Enclosure (1) provides an inventory overview. This effort included all 11 CNIC Regions, 75 Installations, and approximately 27,000 affected buildings. The respective Commanding Officer of each Installation signed a letter affirming the inventory. According to inventory records, CNIC does not possess any damaged tritium exit signs. Inventory records also do not indicate that any tritium exit signs under control of CNIC have become lost, stolen, or missing.

3. CNIC has developed a draft instruction for inventory control of all non-exempt radiation sources. This draft is currently in the chain of command review process and is expected to be signed by 1 Apr 2010.

4. My point of contact regarding this matter is Rick Maiello, Deputy Special Assistant for Safety, CNIC N3, at email Richard.Maiello@navy.mil or telephone (202) 433-4785.

T. J. FASANELLO
