Mr. William Maier
Regional State Liaison Officer
USNRC Region IV
611 Ryan Plaza Drive, Suite 400
Arlington, TX 76011-4005

Dear Mr. Maier:

Please consider this letter a formal request to forward directly to me copies of inspection reports conducted by Nuclear Regulatory Commission staff of both Callaway and Cooper Nuclear Power Plants which have Missouri EMZ's and rated either as SGI or SUNSI.

I am aware of the federal requirements for handling Safeguard Materials including those outlined in 10 CFR 73.21 both as to physical security and shielding from a request under Missouri's Sunshine Law which is similar in scope to a federal Freedom of Information request. We are currently capable of full compliance and it is our full intent to do so.

Additionally please consider this letter a formal request for:

- SGI and/or SUNSI versions of power reactor physical security inspection reports
- SGI and/or SUNSI versions of documents describing enforcement issues at power reactors
- Safeguards advisories containing SGI or SUNSI that the Region 4 office distributes to power reactors

We again affirm knowledge of, as well as capacity and commitment to comply fully with all provisions of 10 CFR 73.21 and RIS 2005-26 as appropriate including shielding these documents from release of materials under Missouri's Sunshine law. As a practical matter, documents of either class will be treated for storage and handling purposes as SGI.

Documents should be forwarded to me at the Lewis and Clark State Office Building, 1101 Riverside Dr., Jefferson City, MO 65101. This is where we have the necessary 10 CFR 73.21 compliant storage available for all SGI material.

Recycled Paper

If the form of this request is not sufficient to release these copies to me, please contact me as soon as practicable at 573-751-3195.

Sincerely,

DEPARTMENT OF NATURAL RESOURCES

Dru Buntin
