Dear Mr. Marra:

This refers to your license amendment request dated January 12, 2009. Enclosed with this letter is the amended license. **Your request to authorize change in the frequency of exchange/processing of personal monitoring devices is approved. However, please be reminded that you are required to follow the vendor's instructions for the use and interval of processing of the personal monitoring devices.**

Please note that a Condition (No. 18) that appeared on prior amendments to your license has been removed from your amended license (Amendment No. 15) because this condition is not required for the gauges that are authorized on your license. Please review the enclosed document carefully and be sure that you understand and fully implement all the conditions incorporated into the amended license. If there are any errors or questions, please notify the U.S. Nuclear Regulatory Commission, Region I Office, Licensing Assistance Team, (610) 337-5239, so that we can provide appropriate corrections and answers.

An environmental assessment for this action is not required, since this action is categorically excluded under 10 CFR 51.22(c)(14).

Current NRC regulations and guidance are included on the NRC's website at www.nrc.gov; select **Nuclear Materials; Medical, Academic, and Industrial Uses of Nuclear Material;** then **Regulations, Guidance, and Communications.** You may also obtain these documents by contacting the Government Printing Office (GPO) toll-free at 1-866-512-1800.
