SUBJECT: TERRANEARPMC, LLC, REQUEST FOR ADDITIONAL INFORMATION CONCERNING APPLICATION FOR NEW LICENSE, CONTROL NO. 144347

Dear Mr. Raval:

This is in reference to your application dated December 18, 2009 applying for a Nuclear Regulatory Commission license. In order to continue our review, we need the following additional information:

1. In your application you attached a master list of procedures and copies of the procedures. Procedures FP11 through FP20 appear on the master list, but copies of those procedures were not submitted. Submit copies of procedures FP17 “Emergency Actions” and FP20 “Handling, Storage, and Disposal of Radioactive Materials” for our review. The other missing procedures do not need to be submitted.

2. In your application you requested the flexibility to make program changes and changes to procedures which were previously approved by the NRC. These changes must be approved by the RSO and licensee management. Describe the process for procedure and program review and approval, including which levels of management are required to approve the changes.

Current NRC regulations and guidance are included on the NRC's website at www.nrc.gov; select **Nuclear Materials; Medical, Academic, and Industrial Uses of Nuclear Material;** then **Regulations, Guidance, and Communications.** You may also obtain these documents by contacting the Government Printing Office (GPO) toll-free at 1-866-512-1800. The GPO is open from 7:00 a.m. to 6:30 p.m. EST, Monday through Friday (except Federal holidays).

We will continue our review upon receipt of this information. Please reply to my attention at the Region I Office and refer to Mail Control No. 144347. If you have any technical questions regarding this deficiency letter, please call Steve Hammann at (610) 337-5399.

If we do not receive a reply from you within 30 calendar days from the date of this letter, we will assume that you do not wish to pursue your application.

Sincerely,

Original signed by Kathy Modes
