Subject: RAI, Room Removal
(NOTE: This will be used as the Documents Title in ADAMS)

Dr. Schultz, what licensed material was in Room 221? Dr. Schultz said they only had that Ni-63 source which was generally licensed material in the room. I asked Dr. Schultz to send in a signed statement that he only had the Ni-63 source in the room and to send along the last leak test along with the statement. He also said that it was only the one source and no previous sources were in the room.

Action Required: Dr. Schultz to send in documentation on the room use and leak test.
