Subject: Telcon Summary - Telcon with SCE&G 3/11/10

On March 11, 2010 NRC staff (Tanya Simms and Om Chopra) participated in a telephone conference call with SCE&G representatives and observers (see below) regarding the staff's detailed review of the Summer Units 2 and 3 COL application. The purpose of the call was to discuss certain interfaces with the standard design in section 8.2.

The discussion focused on the applicant's response to RAI 1-4 dated November 12, 2009, where a description of the changes that addressed the interface items in the AP1000 DCD was proposed. However, the RAI response did not propose adding a similar table as those found in the Bellefonte and Vogtle applications.

At the conclusion of the call, SCE&G stated that they will provide a supplemental response to include a table that provides the information for interface item 8.2.

Andy Underwood
James Fender

Thank you,
Tanya
