SUBJECT: MIDDLESEX CARDIOLOGY ASSOCIATES, P.C., LICENSE AMENDMENT, CONTROL NO. 144447

Dear Dr. Corning:

This refers to your license amendment request. Enclosed with this letter is the amended license. This Amendment adds the new facility at 51 Main Street in Old Saybrook, Connecticut as requested to enable you to move your licensed activities. Pursuant to a telephone conversation with Ms. Farr of your organization on February 23, 2010, we understand that this facility is a one story building with doctor's offices and a waiting area surrounding the area of use. We also understand that only unit dosages will be used in this facility. Prior to release of your current facility at 1347 Boston Post Road in Madison, Connecticut for unrestricted use, you must receive an Amendment removing this facility from your license. Include in the request, the results of surveys demonstrating that the levels of residual activity in the facility are acceptable. When you submit the Amendment request, please refer to the Control Number at the top of this letter.

Please review the enclosed document carefully and be sure that you understand and fully implement all the conditions incorporated into the amended license. If there are any errors or questions, please notify the U.S. Nuclear Regulatory Commission, Region I Office, Licensing Assistance Team, (610) 337-5239, so that we can provide appropriate corrections and answers.

Please note that Dr. Krishnan has not been added to the license as discussed with Ms. Farr. To support a future request to add Dr. Krishnan to the license, please submit a copy of his board certification along with a preceptor attestation. The form located at http://www.nrc.gov/reading-rm/doc-collections/forms/nrc313a(aud).pdf may be useful in a future amendment request. Additionally, please note that Dr. Pandey was removed during a prior amendment to your license.

An environmental assessment for this action is not required, since this action is categorically excluded under 10 CFR 51.22(c)(14).

Current NRC regulations and guidance are included on the NRC's website at www.nrc.gov; select **Nuclear Materials; Medical, Academic, and Industrial Uses of Nuclear Material;** then **Regulations, Guidance, and Communications.** You may also obtain these documents by contacting the Government Printing Office (GPO) toll-free at 1-866-512-1800. The GPO is open

from 7:00 a.m. to 6:30 p.m. EST, Monday through Friday (except Federal holidays).

Thank you for your cooperation.

Sincerely,
