RE: Amendment to NRC License #13-32739-01

Please expedite

Dear Sir or Madam:

C & G Technologies, Inc. would like to amend its Byproduct Materials License, Number 13-32739-01, to authorize the use of F-18 in unsealed form. We wish to specify a maximum possession amount of ten Curies. The F-18 would be utilized at the facility currently specified on our license. All waste F-18 would be disposed of via Decay-in-Storage (DIS). Appropriate shielding materials and disposable gloves will be available to ensure safe handling of the F-18.

If there are any questions concerning this license amendment, please contact our Radiation Safety Officer, Mr. Patrick J. Byrne, DABR, CHP, DABSNM at 877-317-5811.

Sincerely,

Todd Raderer
