SUMMARY

Letters Received

1. Letter dated 01/01/2009 (rec'd 02/02/2010) requested to merge state registration with their current NRC license (see conversation with Laura Smith, consultant).

2. Second letter dated 02/27/2010 (received 03/16/2010) was to decommission/release IP skylight and add new room, OP skylight. Needed clarifications on the submitted diagrams – (1) material used/to be used in IP/OP (2) overall diagram layout and proposed changes (3) confirm if sealed sources.

04/05/2010 conversation w/Robert Sieffert, RSO

I spoke with Robert Sieffert to discuss what was used in IP skylight (in-patient skylight) and what will be used in the OP skylight (out-patient skylight). Mr. Sieffert indicated that it was only 100/200 materials used in the IP skylight and will be used in the OP skylight; he indicated that no PET materials to be used in the new OP skylight.

I asked Mr. Sieffert if the OP skylight is within the same address location of use on their license. He indicated "yes" and that it was just "down the hall" and that this new OP skylight room was an old x-ray room and the walls are lead-lined. I had additional questions about the new OP skylight room but Mr. Sieffert asked me to speak with their consultant, Laura T. Smith.

In accordance with 10 CFR 2.390 of the NRC's "Rules of Practice," a copy of this correspondence will be available electronically in the NRC Public Document Room or from the Publicly Available Records (PARS) component of NRC's document system (ADAMS). The NRC's document system is accessible from the NRC Web site at http://www.nrc.gov/reading-rm/adams.html.
