Dear Mr. Gronquist:

This refers to the undated letter received December 14, 2009, requesting the addition of two physicians as authorized users. The information submitted was too incomplete for us to take action on your request. We need additional information to complete our review of the request as described in the "Request of Additional Information". We will void your request at this time to allow you time to gather additional information for the amendment request. We will void your request without prejudice to resubmission. Please submit the additional information as requested in the enclosed "Request for Additional Information".

When you resubmit your request please state that the resubmission is additional information to **Voided Control 318701.** We will resume our review upon receipt of your response. Please note, that a "voided request" is an administrative procedure that puts your amendment request "on hold" until you reactive it by a written response. The "voided request" is regarded as "good" because it gives you time to prepare a quality response.

In accordance with 10 CFR 2.390 of the NRC's "Rules of Practice," a copy of this letter and its enclosure will be available electronically for public inspection in the NRC Public Document Room or from the Publicly Available Records (PARS) component of NRC's document system (ADAMS). The NRC's document system is accessible from the NRC Web site at http://www.nrc.gov/reading-rm/adams.html (the Public Electronic Reading Room).

Sincerely,

William P. Reichhold
