Subject: RE: information for SECY on NJ

Torre,

Here's the info:

At the current time, the NRC Office of Investigations has three pending investigations that may result in escalated enforcement actions against an NRC licensee located within the State. The NRC Office of Enforcement has one pending enforcement action against a licensee. Additionally, six allegations are currently open related to NRC licensees within the State. The remaining open actions that the NRC is unable to close between now and the effective date of the Agreement will either continue to be handled by the NRC with the involvement of the State or will be transferred to the State. The NRC will work closely with the State to ensure the smooth transition of authority over these open cases before the effective date of the Agreement.

Subject: information for SECY on NJ

Hi Donna - here are 2 paragraphs from the SECY I'll need to update.

Item 4 below is the "actions pending" paragraph. I haven't updated from Commonwealth to NJ - we'll need the open investigations, enforcement, allegations and such.

Item 5 below - I didn't know if we had any of these things. I need to update the information there re: the orders - you probably know more than I do - should I go to Kim and Ernesto for this information? Or is it already outdated material since there are license conditions? I'm not real knowledgeable on this stuff given it was all starting while I was in Rulemaking.

(4) Actions Pending against Licensees to be Transferred

[fill in current information for NJ] **[this is from VA paper -** At the current time, the NRC Office of Investigations has one pending investigation that may result in escalated enforcement actions against an NRC licensee located within the Commonwealth. The NRC Office of Enforcement has one other pending enforcement action against another such licensee. Additionally, no allegations are currently open related to NRC licensees within the Commonwealth. The remaining open actions that the NRC is unable to close between now and the effective date of the Agreement will either continue to be handled by the NRC with the involvement of the Commonwealth or will be transferred to the Commonwealth. The NRC will work closely with the Commonwealth to ensure the smooth transition of authority over these open cases before the effective date of the Agreement.]

(5) Outstanding Orders, Confirmatory Action Letters, and 10 CFR 2.206 Petitions against Licensees that Will Transfer

[check this information] The NRC issued orders and license conditions for Increased Controls (EA-05-090) and Fingerprinting and Criminal History Records Check Requirements for Unescorted Access to Certain Radioactive

Information in this record was deleted in accordance with the Freedom of Information Act. Exemptions Ex 6
FOIA/PA 2010-0039

H/23

Materials (EA-07-305) to licensees in the State of New Jersey. **[insert number]** licensees are implementing these requirements based on the quantities of regulated materials that they possess. The NRC staff approved regulations implementing the Increased Controls and Fingerprinting and Criminal History Records Check requirements for risk-significant radioactive materials, **[update this as appropriate - which the Commonwealth will impose on the same licensees under the proposed Agreement.]**

continue on with the rest of the package and comment resolution. I'm trying to get as much of this package together as I can over this week and next week - and then just waiting on any straggling comments. I'll need to drop this information into the paper before it starts management review here.

thanks!
