Subject: RE: Tracerco DFP

Ms. Kauffman,

I am trying to devote the rest of this week and next to complete the DFP by September 3, 2010. I am schedule to attend the NRC public meeting and Texas Radiation Regulatory Conference September 1-3, so I am trying to have it wrapped up by August 31. I am sure that I may be coming to you with a couple of questions.

Mr. Lanier:

As always, you may call me at any time with any licensing questions.

However, you may recall that I called you on August 16, 2010 to obtain a status report regarding the DFP and to obtain a date by which you will submit it to the NRC for review. I had asked you if you could meet the date of September 3, 2010 and you stated that you would contact me in an e-mail. Please provide a status update and the date you expect to submit the DFP to the NRC. Please note, early September is preferable in order to effectively review the DFP, ask any additional questions, and amend the license, as needed.

Thank you for your prompt attention in this matter.

Laurie Kauffman

Laurie,

Subsequent to our conversation yesterday I have been reviewing my DFP notes. The questions I thought I had have been resolved. Please indulge me if I have to contact you in the future as I get deeper into the plan.

Thanks,

Norman
