Subject: U.S. EPR Design Certification Application RAI No. 355 (4263), FSARCh. 17 OPEN ITEM

Attached please find the subject requests for additional information (RAI). A draft of the RAI was provided to you on January 9, 2010, and on January 11, 2010, you informed us that the RAI is clear and no further clarification is needed. As a result, no change is made to the draft RAI. The question in this RAI is an OPEN ITEM in the safety evaluation report for Chapter 17 for Phases 2 and 3 reviews. As such, the schedule we have established for your application assumes technically correct and complete responses prior to the start of Phase 4 review. For any RAI that cannot be answered prior to the start of Phase 4 review, it is expected that a date for receipt of this information will be provided so that the staff can assess how this information will impact the published schedule.

Thanks,
Getachew Tesfaye
