Washington, D. C. 20310

Gentlemen:

This refers to your application for amendment of Source Material License No. SUB-459 dated February 5, 1974. In support of this application, you should submit:

1. A copy of your analysis and calculations performed to verify that ventilation will not be required for thorium transfer and coating machine operations.

2. A more complete description of your routine survey program for airborne thorium.

3. A more complete description of your method for control of sewage disposal of radioactive waste in order to insure that disposals do not exceed the limits specified in Section 20.303 of 10 CFR Part 20.

Upon receipt of this information, review of your application will continue. Your reply should reference Docket No. 40-6639.

Sincerely,

Douglas M. Collins
Materials Branch
Directorate of Licensing
