Paul,

The HP SME would like to request that PEF send the following analytical support documentation and electronic files to the NJ reading room. He would like to review the information prior to the DEIS writing sessions scheduled for the last week in April.

LNG 0000 GLC -001
LNG 0000 GLC -002
LNG 0000 N5C -001 Dose to biota
LNG 0000 N5C -004 Gaseous Effluents Doses and Concentrations
LNG 0000 X7C -012 Aquatic Statistics and Cooling Water Discharges Dilution Factors
LNG 0000 X0C -001 Calculation of Population Distribution...
LNG 0000 N5C -003 Liquid Effluent Doses

Electronic files for NRCDose, GASPAR II and LADTAP II runs that support analysis and findings presented in ER chapter 4 and 5 exposure estimate and demonstration of compliance.

Thanks,

Doug
