Subject: Telcon Summary - Telcon with Vogtle 8/28/09

On August 8, 2009, NRC staff (Tanya Simms and Tung Truong) participated in a telephone conference call with Vogtle representatives and observers (see below) regarding the staff's detailed review of the Vogtle Units 3 and 4 COL application. The purpose of the call was to discuss the requests for additional information (RAI) #4067.

The discussion focused on the lines of figure 8.2-202 to ensure the line dropping does not adversely affect offsite power as reviewed in FSAR chapter 8, Section 8.2.

At the conclusion of the call, Vogtle agreed to provide detailed information regarding the crossing lines and the affect at the point of intersection as well as provide a summary in the FSAR for clarity.
