Sid/Philippe

As a follow up to the phone message(s). I have requested the following:

1. System health reports for Submerged cable, Non-Seg. Bus, and Iso. Bus
2. Report/Data on which Non-Seg. Bus has been changed to copper from aluminum.
3. Documentation that procedure AWP E-016 is going to be updated to include the inspection of the cable supports within the pull-boxes.
4. Reminder to arrange for walk-down of Switchyard during the 2'nd week inspection preferably Monday 9/13.

Placing any or all on Certrec/IMS will be OK as I will have access to it.

I'm out of the office after today but can be reached either by email or my cell phone.
