Rob,

Attached please find the subject request for additional information (RAI). The draft of this RAI was sent to you on April 28, 2010. Based on our discussion on April 29, 2010, UniStar does not require a clarification phone call on this RAI.

The schedule we have established for review of your application assumes technically correct and complete responses within 30 days of receipt of RAIs. For any RAIs that cannot be answered within 30 days, it is expected that a schedule date for submitting your technically correct and complete response will be provided to the staff within the 30 day period so that the staff can assess how this information will impact the review schedule.

Your response letter should also include a statement confirming that the response does or does not contain any sensitive or proprietary information.

Thanks.

Request for Additional Information No. 241 (eRAI 4549)

4/30/2010

Calvert Cliffs Unit 3
UniStar
Docket No. 52-016
SRP Section: 19 - Probabilistic Risk Assessment and Severe Accident Evaluation
Application Section: 19.2

QUESTIONS for PRA and Severe Accidents Branch (SPRA)

19-25

In response to RAI 133, Question 19-243 (currently an open item), of the U.S. EPR FSAR review, AREVA stated that it is planning to add the following COL Information Item to the U.S. EPR FSAR Tier 2, Section 19.2.5 and to Table 1.8-2:

> A COL applicant that references the U.S. EPR design certification will develop and implement severe accident management guidelines prior to fuel loading using the Operating Strategies for Severe Accidents methodology described in FSAR Tier 2, Section 19.2.5.

Please address this COL Information Item in the Calvert Cliffs Unit 3 FSAR and propose a license condition for the implementation of the guidelines.
