Subject: STP - Seismic Audit from 10/18 to 10/22

John,

Kim Hawkins, the Structural Branch Chief, wants to have a short telephone conference with your lead to go over the scope and objectives of this audit. You may want to have at least one of your S&L lead engineer on the line but I do not believe you need all of them.

I agree that we should all be on the same page what we expect to see and discuss. When we leave, we should have the resolution of all open items and a mutually agreed plan and schedule in front of us. This meeting will dictate the public schedule that we do not have for Chapters 3.7 and 3.8.

If you can arrange a 30 minute call next Tuesday (10/12) afternoon or Wednesday (10/13) mid to late morning, the staff's calendar is open for now.

Regards

Tom Tai
