**Subject:** STP - Chapter 9 STP Comments

Jim,

You provided some feedback on the Chapter 9 Phase 2 SE prior to ACRS. I've forwarded my corrections on the SE and your comments to our technical reviewers for Phase 4. However, some of the STP comments your tech staff provided may be related to the proper description of the Units 3 and 4 systems than our interpretation of the FSAR. Examples are the water quality of the CRD water and the waste basin discharge operation. With the exception of using NRDT for the Non-Radioactive Drainage System, I've asked our staff to consider the STP comments. If our staff was quoting the FSAR correctly, no NRC action will be taken. But you may need to ensure the FSAR description is correct.

When I receive input from our staff on the accuracy of the quotes, I'll let you know if we have new RAIs.

Regards

Tom Tai
