

October 14, 2005

The Honorable Pete V. Domenici
United States Senate
328 Senate Hart Office Building
Washington, DC 20510-3101

Dear Pete,

Thank you so much for your support in bringing me back to the Commission. Alex was a behind-the-scenes guardian angel throughout the long process. I am honored at the confidence you have shown in me and will do my absolute best to continue to earn that confidence at NRC.

The Commission clearly faces significant challenges in the years ahead. With the help of you and other Senators interested in nuclear power and effective, efficient and timely nuclear regulation, we will meet those challenges.

It is also a pleasure to work with Pete Lyons at the Commission, and I hope you and Senator Reid will soon be able to see Pete and Greg Jaczko confirmed for their full terms.

Sincerely,

Edward McGaffigan, Jr.

C-19
