Subject: Couple of items

Rick

1. You left me a voicemail asking about the source of a 7/14/10 email (available in ADAMS) with cultural information for the Glades site. I looked at it and can't find how it came to me. I think you forwarded it, but I can't find the email. My recollection is you were sending this info as a courtesy because it was already public as part of the SCA process for Glades, but very difficult to locate on the FDEP website.

2. Some time back we discussed the possibility of having a call to go over the expected changes to the groudwater model associated with Revision 3 to the model. This would have to be a public teleconference, so I need some time to set it up. Do you have a sense of when might be a good time for such a call? Where does FPL stand on the completion of revision 3 (i.e., do you have an estimated date)?
