Subject: Part 26 Exemption Request

Farideh,

On March 3, 2011, CR-3 requested that a one-time exemption from portions of 10 CFR 26.205(d)(3) be granted on March 14, 2011. However due to the containment delamination that occurred on March 14, 2011, CR-3 restart activities have been delayed and the exemption is not needed at this time. CR-3 will follow-up with a letter on the docket that will either:

1. Supplement the initial Part 26 exemption request by addressing the NRC RAI dated February 10, 2011 or
2. Withdraw the exemption request.

Sincerely,

Dan Westcott
CR-3 Licensing Superintendent
