April 12, 2011

MEMORANDUM TO: Cindy K. Bladey, Chief
Rules, Announcements and Directives Branch
Division of Administrative Services
Office of Administration

FROM: Kevin R. O'Sullivan, Chief ***/RA/***
Rulemaking Branch B
Division of Intergovernmental Liaison
and Rulemaking
Office of Federal and State Materials
and Environmental Management Programs

SUBJECT: IMPLEMENTATION OF NOVEMBER 30, 2010, SRM:
PROPOSED RULE: DOMESTIC LICENSING OF SOURCE
MATERIAL- AMENDMENTS/INTEGRATED SAFETY ANALYSIS
(RIN 3150-AI50)

On November 30, 2010, the Commission approved the proposed rule on the above subject as set out in SECY-10-0128. The changes to meet the requirements of the Staff Requirements Memorandum (SRM) have been made. Note that the SRM erroneously references an approved integrated safety analysis (ISA) rather than an approved ISA summary as being the trigger for when the backfit provisions would become effective. This was reported to SECY who made a note of it in their file.

Please implement the Commission's action by arranging for publication of the attached proposed rule (ML110890797) in the *Federal Register*.

Attached is the Congressional Letter package (ML110890861) for transmittal to the Office of Congressional Affairs. Please coordinate publication of the press release with the Office of Public Affairs. The supporting regulatory analysis (ML102380243) and environmental assessment (ML102380248) are available in ADAMS and may be posted on the rule website.

Enclosures:
1. *Federal Register* Notice of Proposed Rule
2. Congressional Letters
