Subject: Phase IV Financial Information - Termination of Review

Dear Mr. Miner:

I am responding to your letters dated June 29, 2009 (AET 09-0057) and August 25, 2009 (AET 09-0067), in which you transmitted information regarding financial information related to Phase IV construction activities for the American Centrifuge Plant (ACP), located in Piketon, Ohio.

As you requested in AET 09-0067, the action has been withdrawn from review by the U.S. Nuclear Regulatory Commission (NRC). This completes our efforts on TAC No. L32877. The NRC expects that USEC will provide a revised Phase IV cost and schedule following re-mobilization of the ACP construction efforts. If you have any questions concerning this action, I can be reached at (301) 492-3232 or by e-mail at james.downs@nrc.gov.

In accordance with 10 CFR 2.390 of the NRC's Rules of Practice, a copy of this email will be available electronically from the Publicly Available Records (PARS) component of NRC's Agencywide Documents Access and Management System (ADAMS). ADAMS is accessible from the NRC Website at http://www.nrc.gov/reading-rm/adams.html.

Sincerely,

James Downs
