Areva Application:

I have several concerns about the Areva application.

1. As a member of the legislature at the time that the tax exemptions were being considered (and I voted "no") I had concerns about the financial viability of the company.

2. I couldn't understand the transportation issues back and forth to the enrichment plant. It seemed to make more sense to co locate.

3. I thought the exemptions were excessive.

4. I could not get a feeling for the safety processes that would make me feel comfortable regarding our sole source aquifer. After the BP fiasco, I am now more concerned.

5. Disposal of waste which is huge appears to still be a problem and safety concerns loom.

Thank you for the opportunity to comment.

Sincerely,
Wendy Jaquet
