Subject: NRC amendment request

License No. 52-16033-01
Docket No. 030-11155
Control No. 574692

Mr. Hernandez,

We received an amendment request to add sealed sources to your radioactive materials license. Based on the information that was provided, I was not able to determine the exact sources that are being requested. In order for me to complete the amendment I will need the specific manufacturer name and model numbers for each source, plus a copy of the Sealed Source and Device Registry for each. The registry may be obtained from the source manufacturer.

For your information, I also requested this information from David Rhoe. Please let me know as soon as you have gathered the additional information. I may be reached by e-mail or telephone (610-337-5272). Failure to respond to this request within 30 days will result in the voidance of the amendment request.

Thanks in advance,

Tara L. Weidner
